

PLATFORM FIGHT ON CONVENTION FLOOR

Four Days Battle Over Klan Plank Splits Democrats

Radio Paints Convention Vividly

By Stephen Bolles

If one could visualize the convention at Madison Square Garden in action, it would aid in listening to the noise over the radio. For the convention has been made up of five per cent speech-making, 20 per cent shouting and 75 per cent of hammering the plank and trying to quell the howling mob. All conventions are much alike. The one in New York is no exception. It has been known to have been presented to a convention. For each of them there was a demonstration. Now all demonstrations are alike. In the main, with some added frills peculiar to each. First the speaker makes a decided hit on some point near and dear to the heart of the audience. Then there is the handclapping, then a volley of cheers, then Old P. D. Q. Jones, who at home is as solemn as an angel, and who in the convention hall is as loud as a steam locomotive, jumps up and down with a series of screams half-way between the shriek of a frightened woman and the howl of a demoniac. Then a delegate, who at home is as quiet as a mouse, jumps up and down with a series of screams half-way between the shriek of a frightened woman and the howl of a demoniac. Then a delegate, who at home is as quiet as a mouse, jumps up and down with a series of screams half-way between the shriek of a frightened woman and the howl of a demoniac.

PENCIL PICTURES AT MADISON SQUARE

BRYAN OFFERS PRAYER AND CALMS COMMITTEE

Madison Square Garden, N. Y. — Responding to appeals of the party leaders to give more time for the platform committee to work on the Ku Klux plank, the democratic national convention, after a brief morning session, recessed until 3 p. m. eastern daylight saving time.

Steadily and peacefully, the delegates on the issue of whether the Klan is to be named specifically, and surrounded by war clouds loaded with threats of a party split, the convention managers went through a series of maneuvers. The platform committee, in the end, to explain to the convention why the plank was being delayed and to plead for more time.

Third and worst of all, a long session of sleep since last Tuesday, Chairman Cummings, gave as dramatic a recital as ever has been heard in national convention. Explaining the deliberations of the committee and its inability to reach an agreement, he told, amid a dramatic silence, how after an all night session the committee had been unable to agree on their table in the breaking dawn of the day and recited in unison the Lord's prayer, after which William Jennings Bryan had raised his voice and spoken a prayer for divine guidance.

Dark Atmosphere.

In an atmosphere darkened by uncertainty and electric with discussion, the democratic national convention came today to its major task—adoption of a platform and selection of a presidential ticket.

As the delegates assembled, however, the day's program was a considerable doubt with the platform committee still unable to agree on a Ku Klux Klan plank in recess until 3:30 p. m.

Thomas S. Cummings, of Connecticut, chairman of the committee, was ready to call the convention, which had been called for 9:30 a. m. to take up the platform, to recess until 3 p. m. when he hoped the report would be in shape for presentation.

Worked All Night.

The committee had struggled until 1:30 a. m. with the Klan issue before yielding to the necessity of rest, and even then had been unwilling to give up the effort to find some compromise that would reduce the likelihood of a highly explosive fight on the convention floor.

The threat of a Klan fight in the convention and its dangerous potentialities to the party also kept other leaders on edge of the night in a (Continued on Page 4)

JUDA GARAGE AND DEPOT ARE ROBBED

\$100 Obtained by Thieves Who Smash Windows to Gain Entrance.

(SPECIAL TO THE GAZETTE)

Juda, unknown robbers entered the E. E. Anderick garage and the Chicago, Milwaukee & St. Paul depot here late Friday night or early Saturday and escaped with valuables to the amount of \$100.

At the garage entrance was gained by breaking a window in the rear. An inventory of the stock Saturday morning showed approximately \$100 worth of goods missing. No tires were taken.

A window in the waiting room was smashed to furnish entrance to the depot. The only thing missing was \$100 in cash.

Marshall Gus Nordor has no clues on which to work.

ADOLPH SPRECKLES DEAD IN FRISCO

San Francisco. — Adolph B. Spreckles, nationally known sugar magnate and manufacturer, died at his home here today.

Of all the stories of the year 1923—and there were thousands of them written and published—the one receiving the prize from the Pulitzer Fund—a fund left by the late Joseph Pulitzer for the purpose of stimulating and acknowledging effort in journalism and literature—was by Margaret Wilson and its title "The Able McLaughlins."

It is a story of the Iowa prairies, of people you have seen and know. Pioneers and their descendants and a great love story—love and sacrifice. It will begin in the Janesville Daily Gazette Saturday and Sunday edition, issue of July 5 and 6.

\$10,000 BARN IS WRECKED IN BLAST OF ROAD DYNAMITE

(SPECIAL TO THE GAZETTE)

Monroe.—A large barn, 120x38 feet and costing \$10,000, on the Otto Blum farm, six miles northwest of Monroe, was practically demolished late Thursday by a blast of dynamite set off in a hill more than 150 feet away by a blaster for Webb and Dixon, Albany contractors, doing the work on Highway 61.

Five hundred pounds of dynamite, put into five holes of the large hill that was to be removed, blew tons of sand and earth into the air and flattened out one side and the roof of the barn as though it were paper. The heavy foundation on the west side was cracked through at each end and a foot out of line.

Thirty-five tons of hay that held up the other sides of the barn that were ready to collapse, were covered with tons of sand. Two sections of board fence surrounding the barn yard, including a dozen oak posts, were broken off at the ground. The blast blew a stone weighing to pounds 200 feet, where it struck a steel support of a windmill, breaking it off.

Five calves in the barn escaped. No one was in the barn at the time. George Hixtable, Mineral Point, expert blaster, who set off the charge, was overcome by the wreckage it caused and unable to account for it. Dynamite usually tends to loosen dirt downward, but the big charge blew it outward.

The contractors plan to settle with Mr. Blum for the barn, which was built in place of one destroyed by fire four years ago when struck by lightning.

WIN RIGHT TO SEE RECORDS OF PACKERS

Chicago.—The department of agriculture today won its contest for the right to inspect the books and records of the packing companies when federal Judge Cliffe issued a writ of mandamus directing that all records be opened to the department inspectors.

Secretary Wallace had demanded that he be allowed to keep permanent auditors in the plants of Smith and company, and Wilson and company, and the Cudahy Packing company. The packing companies refused.

The department then filed legal action to compel them to concede.

MAJOR COUPAL NEW PHYSICIAN TO PRESIDENT

Washington.—Major James P. Coupal, curator of the army medical museum, was selected by President Coolidge to be his personal physician, succeeding Brig. Gen. Charles E. Sawyer, resigned.

AMALGAMATION FAILS

Cleveland.—Amalgamation of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Engineers failed when a committee reported inability to overcome difficulties in finding a method of merger.

MANY KILLED, TRAIN IS MISSED AFTER TORNADO

Peoria.—Eight persons are dead and scores injured as the result of a tornado which broke over Peoria and surrounding territory about 3:15 o'clock this morning.

No trace of a Big Four passenger train can be found. The train was due here at 6:45 a. m.

The bodies of a woman and her babe were found in a field far from their home at Cloverdale, near here, and at Morton, 10 miles east of here, several are reported killed and many injured. At Cloverdale, 11 miles east, the Franks home was completely blown away. The body of Mrs. Franks was carried a hundred yards by the wind. Mr. Franks is in a serious condition and three children badly injured.

HEAVY PROPERTY LOSS.

SEVERAL HURT IN IOWA

Des Moines, Ia.—Four persons are known to have been injured and huge property damage in a number of Iowa cities resulted from a severe wind storm that swept virtually all sections of the state early this morning.

All communication lines were interrupted this morning and an accurate survey of conditions was impossible.

From fragmentary reports, it was indicated that property loss was chiefly in broken plate glass, tangled transmission and communication lines, fallen fruit trees, damaged crops and unroofed buildings.

Three persons known here to have been injured, were hurt by falling debris.

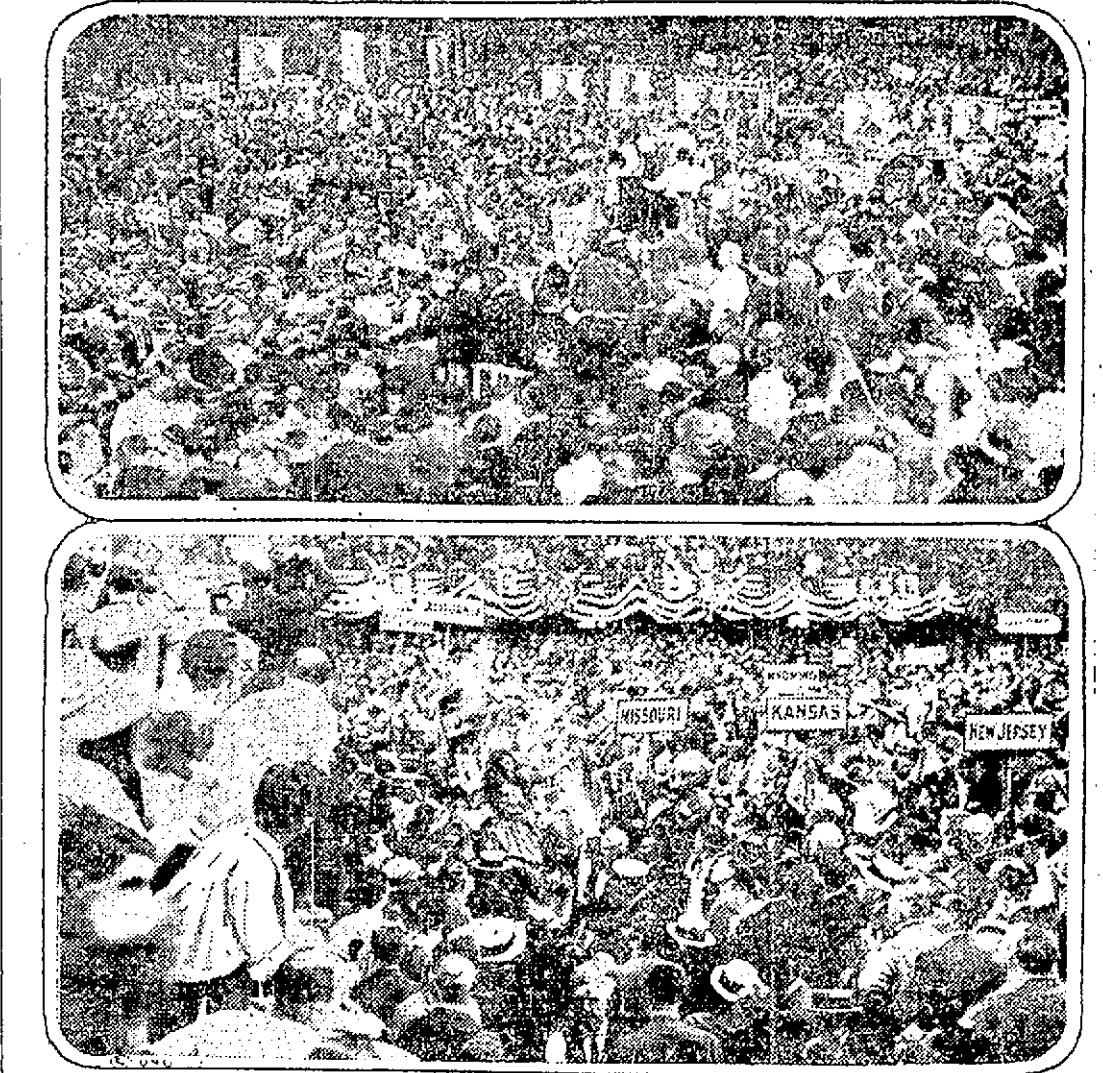

Houses were unroofed and were wrecked. Huge trees were uprooted, plate glass windows blown out, telegraph and telephone lines torn down, automobiles lifted from the street to the sidewalk and hundreds of basements flooded.

The storm seemed general in all directions before the tornado hit the west bluff and moved south over the old section. An area two miles wide, passing over east Peoria, was directly in its path. Telegraph and telephone lines are demolished, only meagre reports being received from outlying districts.

SUSPEND NEW GRAIN RATES

Washington.—Proposed new schedules to revise the rates on grain and grain products from points in Illinois, Iowa, Minnesota, Missouri, Nebraska, South Dakota and Wisconsin to Texas, resulting principally in a general increase, were ordered further suspended today, from June 27 to July 29, by the Interstate Commerce commission. Under the proposed schedules the rate from Minneapolis to Texas would be increased from 45 1/2 cents per hundred pounds to 50 1/2 and the rate shipping rates would be increased from 46 1/2 to 51 1/2.

Customary Tumults Follow Nominating Speeches

Photos taken in Madison Square Garden, showing the customary tumult of enthusiasm accompanying speeches presenting candidates to the Democratic convention. Banners bearing portraits of Al Smith dashed upon all parts of the convention floor when he was named, as can be seen above.

BAINBRIDGE COLBY TO LEAD CONFLICT TO NAME K. K. K.

CONVENTION OPENS FOR IMPENDING BATTLE BETWEEN FACTIONS.

TWO REPORTS IN One General. One Specific on Klan Divides Convention Delegates.

(BY ASSOCIATED PRESS)

New York.—Bainbridge Colby, of New York, secretary of state and President of the Klan, was selected today to make the fight for an anti-Klan plank on the floor of the democratic convention. Mr. Colby was chosen at a conference attended by Norman L. Mack of New York, George Brennan of Illinois, and other leaders who were in attendance at the Klan convention. It is probable the fight against such a plank will be conducted on the floor by William Jennings Bryan.

General Charles H. Cole, delegate at large from Massachusetts, was chosen to assist former Secretary Colby in the convention.

The plan of attack as decided upon by the anti-Klan leaders was communicated to Governor Smith by Mr. Brennan and word was brought back that he had the unqualified approval of the New York governor.

WILL DEBATE KLAN MINUS CROWDS; FEAR BLOODSHED

Madison Square Garden, N. Y.—Tearing at the Klan and possibly bloodshed, managers of the democratic national convention today feared to discuss the Klan plank of the platform in the presence of the crowd, and agreed upon a plan for a separate session to-night from which all delegates and newspaper men would be excluded.

Talk of party splits on every side, threats of violence which caused the authorities to pack Madison Square Garden and to place a large force of police and openly expressed fear that some blood might be shed in a heated discussion of the religious issue caused the convention managers to come to their decision.

Madison Square Garden, New York.—At the final session of the platform committee today, the vote against naming the Ku Klux Klan in the platform was 15 to 16. The action continued fore-

(Continued on Page 5)

STATE BAR URGES ALL BE EXAMINED

Would Make Applicants Take Quiz. Irrespective of Diploma.

Appleton.—The Wisconsin Bar association, at its annual convention here today, adopted a resolution urging that all applicants for admission to the state bar be required to take the bar examination.

This would eliminate the practice of several years standing to admit graduates of the University of Wisconsin law school without examination, and would place the graduates of this school on the same plane with those of Marquette university, the other law school of the state, whose graduates for several years have been required to take the examination.

Before the resolution can become effective it must be acted upon favorably by the legislature.

BOLT KILLS FIVE CATTLE

Whitewater.—Five head of grade cattle were struck and killed by lightning on the Orie Coburn farm, south of this city, during the storm Saturday morning. Two other head of cattle were struck but not injured by the lightning. The farm is owned by Mr. Coburn, who owns the farm, better known as the McIntyre farm.

SORLIE WINS OVER NESTOS

Urgo, N. D.—With Gov. R. A. Nestos conceding his defeat for the republican gubernatorial nomination on Wednesday, a primary election, an A. G. Sorlie of Great Falls republican league candidate, came into the lead, one of the closest races in this state for years. Sorlie held a lead of 163 today with 47 precincts out of 2,160 missing. The winning districts are reported to be league territory.

FOUR HELD IN MOTOR DEATH

Rhinelanders.—Four men whose names have not been learned here are under arrest in Tripoli charged with the death of A. E. Powers who died from injuries received after being struck by an automobile driven by the quartet late Friday night. It is alleged the driver and his companions were intoxicated.

YANKEE POLO TEAM VICTOR

(BY ASSOCIATED PRESS)

St. Cloud, France.—The United States Olympic polo team today defeated the French team 12 to 1 in the opening match of the Olympic competition.

ERROR IN OPINION ON LAKE MILLS BANK

Madison.—Through an error in the attorney general's department, an opinion given Thursday to Deputy State Bank Commissioner W. H. Richards declared a Lake Mills bank in process of liquidation, the legal decision in this matter being reversed by the department declared no bank in liquidation at Lake Mills, or in danger of liquidation. The opinion related to legality of a library board holding bank stock.

THE WEATHER

Partly cloudy in south; showers in north portion tonight; clear in south and south central portions; Sunday fair.

TEXT OF DEMOCRATIC PLATFORM

(By Associated Press.)

New York—The text of the platform submitted to the democratic national convention by its resolutions committee followed:

We, the representatives of the democratic party, assembled in convention to the memory of Woodrow Wilson. Our hearts are filled with gratitude that American democracy has been preserved, and we whose spirit and influence will live on through the ages, and that it is our privilege to have cooperated with him in the advancement of ideals of government, which will serve as an example and inspiration for this and future generations. We affirm our abiding faith in these ideals and our courage to stand for the standard which he bore and to strive for the full triumph of the principles of democracy to which he dedicated his life.

Democratic Principles: The democratic party believes in equal rights to all and special privilege to none. The republicans hold that special privileges are essential to national prosperity. It believes that national prosperity must originate with the special interests and seep down through the channels of trade to the less favored industries, to the wage earners and small salaried employees. It has accordingly entrenched privilege and nurtured selfishness. The republican party is concerned chiefly with material things, the democratic party is concerned chiefly with human rights. The masses, burdened by discriminating laws and unjust administration, are demanding relief. The favored special interests, represented by the republican party, contented with their unjust privileges, are demanding that no change be made. The democratic party stands for remedial legislation and progress. The republican party stands still.

Comparison of Parties: We urge the American people to compare the record of eight unsullied years of democratic administration with the record of the republican administration. In the former there was no corruption. The party pledges were faithfully fulfilled, and a democratic congress enacted an extraordinary number of constructive and remedial laws. The economic life of the nation was quickened. Tariff taxes were reduced. A federal trade commission was created. A federal farm loan system was established. Child labor legislation was enacted. A good roads bill was passed. Eight hour laws were adopted. A century of labor was secured in the coal mines. The president, The Clayton anti-trust act was passed, freeing American labor and taking on from the trusts the commodities. By the Smith-Lever bill improvement of agricultural conditions was effected. A corrupt practice act was adopted. A well-considered warehouse act was passed. Federal employment bureaus were created, farm loan banks were organized and the Federal Reserve System was established. Privilege was uprooted. A corrupt lobby was driven from the national capital. A higher sense of individual and national duty was aroused. America enjoyed an unprecedented period of peace and material progress.

During the time which intervened between the inauguration of a democratic administration on March 4, 1913, and our entrance into the world war, we placed upon the statute books of our country more effective, constructive and remedial legislation than the republican party had placed there in a generation.

During the great struggle which followed we had a leadership that carried America to greater heights of honor and power and glory than she had ever known before in her entire history.

Transition from this period of exalted democratic leadership to the sordid record of the last three and a half years make the nation ashamed. It makes the contrast between a high conception of public service and an avid purpose to distribute spoils.

Republican Inefficiency and Corruption: Never before in our history has the government been so tainted by corruption and never has an administration so utterly failed. The nation has been appalled by the revelations of political depravity which have characterized the conduct of public affairs. We arraign the republican party for attempting to limit inquiry into official delinquencies and to insure that it not frustrate the investigations to which, in the beginning the republican party leaders assented, but which later they regarded with dismay. These investigations sent the former secretary of the interior to Three Rivers in disgrace and dishonor. These investigations revealed the incapacity and indifference to public obligation of the secretary of the navy, compelling him, by force of public opinion, to quit the cabinet. These investigations confirm the general impression as to the unfitness of the attorney general by exposing an official situation and personal contacts which shocked the conscience of the nation and compelled his dismissal from the cabinet. These investigations disclosed the appalling conditions of the veterans' bureau with its fraud upon the government and its cruel neglect of the sick and disabled soldiers of the world war. These investigations revealed the criminal and fraudulent nature of the oil leases, which caused the congress, despite the indifference of the executive, to direct recovery of the public domain and the prosecution of the criminal.

Such are the exigencies of partisan politics that republican leaders are reaching the strange doctrine that public energy should be directed against those who expose crime rather than against criminals who have committed the offenses. If only these cabinet officers, out of the disgrace of the country, are asked to marvel at how many are free from taint. Long boastful that it was the only party "fit to govern," the republican party has proven its inability to govern even itself. It is at war with itself. As an agency of government it has ceased to function. This nation cannot afford to entrust its welfare to a political organization that cannot master itself, or to an executive whose policies have been rejected by his own party. To retain in power an administration of this character would be a sure sign in four years more of continued disorder, internal dissension and governmental inefficiency.

A vote for Coolidge is a vote for chaos.

Other Clauses Provide: Makes honest government the issue. Would change and reduce tariff. Calls tariff greatest evil. Proposes to add agriculture by opening the markets of Europe.

Other provisions in the platform declare the Esch-Cummins railroad law has failed, while other provisions in the platform call for adherence to the purposes of the Esch-Cummins law, while declaring that law has failed; use of Muscle Shoals for making of nitrates for war and farm uses; state supervision of education; and the free spirit of the civil service law.

adequate salaries for postal employees; convening of congress immediately after the biennial national elections; extension of the prohibition principle to the courts of the U. S.; full share in governmental activities and honesty in campaign contributions.

League of Nations: The democratic party pledges all its energies to the outworking of the whole war system, and to refuse to believe that the wholesale slaughter of human beings on the battlefield is any more necessary to man's highest development than is killing by individuals. The only hope for world peace and for economic recovery lies in the organized efforts of sovereign nations cooperating to remove the causes of war and to substitute law and order for violence.

Under democratic leadership a practical plan was devised under which 54 nations are now operating and which has for its fundamental purpose the free cooperation of all nations in the work of peace.

The government of the United States for the last four years has had no foreign policy, and consequently it has delayed the restoration of our political and economic agencies of the world. It has impaired our self respect at home and injured our foreign markets and ruined our agricultural prices.

It is of supreme importance to civilization and to mankind that the league be placed and kept on the right side of the greatest question of all time, and therefore the democratic party renews its declaration of confidence in the league of nations and the peace, the league of nations and the world court of law as together constituting the supreme effort of the statesmen of our time and religious conviction of our time to secure the peace of the world.

Further, the democratic party pledges that it will be the purpose of the next administration to do all in its power to secure for our country the moral leadership in the family of nations which, in the providence of God, has been so clearly marked out for it. There is no substitute for the league of nations as an agency working for peace, therefore, we believe that, in the interest of permanent peace, and in the lifting of the great burdens of war from the backs of the people, and in order to establish a permanent foreign policy on these supreme questions, not subject to change with change of party, it is desirable, wise and necessary to lift the question out of party politics and to that end, to take the sense of the American people at a referendum election, advisory to the government, to be held officially under the auspices of the league of nations, free from all other questions and candidates after ample time for full consideration and discussion throughout the country upon the question, in substance, as follows:

"Shall the United States become a member of the league of nations upon such reservations or amendments to the covenant of the league as the president and the senate of the United States may agree upon?"

Immediately upon an affirmative vote, we will carry out such mandate.

Deep Waterways: We favor and will promote deep waterways from the great lakes to the gulf and to the Atlantic ocean.

Flood Control and Water Transportation: We favor a policy for the fostering and building of inland waterways and the removal of obstructions against water transportation. Flood control and the lowering of flood levels is essential to the safety of life and property, the productivity of our lands, the navigability of our streams and reclamation of wet and over-flooded lands and the creation of hydro-electric power. We favor the expeditious construction of flood relief works on the Mississippi and Colorado rivers and also such reclamation and irrigation projects upon the Colorado river as may be found to be feasible and practical.

We favor liberal appropriations for prompt construction of levees by the United States to determine the possibilities of general navigation improvements and water power development on navigable streams and their tributaries to secure reliable information as to the most economical navigation improvement, in combination with the development of water power.

We favor suspension of the granting of federal waterpower licenses by the federal water power commission until congress has received reports from the waterpower commission, with regard to applications for such licenses.

Patronage Stock Sales: We favor the immediate passage of such legislation as may be necessary to enable the states efficiently to enforce their laws relating to the gradual financial strangling of innocent investors, workers and consumers, caused by the indiscriminate promotion, financing and reorganization of corporations on an inflated and over-capitalized basis.

Private Monopolies: The federal trade commission has submitted to the republican administration numerous reports showing the existence of monopolies and combinations in restraint of trade, and has recommended proceedings against those violators of the law. The few precedents which have resulted from this abundant evidence furnished by the democratic party, showing the difference of the administration to the violations of law by trusts and monopolies, and its friendship for them, nevertheless demonstrate the value of the federal trade commission.

We declare that private monopoly is intolerable and pledge the democratic party to vigorous enforcement of the laws against monopoly and legal combinations and to the enactment of such further measures as may be necessary.

Activism: We favor a sustained development of activism both by the government and commercially.

Labor and Child Welfare: Labor is not a commodity. It is human. We favor collective bargaining and laws regulating hours of labor and conditions under which labor is performed. We favor the enactment of legislation providing that the product of convict labor shipped from one state to another shall be subject to the laws of the latter state, exactly as though they had been produced therein. In order to mitigate unemployment attending business depression, we urge the enactment of legislation authorizing the construction and repair of public works be initiated in periods of acute unemployment.

We pledge the party to cooperate with the state governments for the welfare, education and protection of child life and all necessary safeguards against exhaustive debilitating employment conditions for women.

Without the votes of democratic members of the congress the child labor amendment would not have been submitted for ratification.

Latin American Republics: From the day of their birth friendly relations have existed between the Latin-American republics and the United States. That friendship grows stronger as our relations become more intimate. The democratic party sends to these republics its cordial greetings; God had made us neighbors—justice shall keep us friends.

Elections are public affairs conducted for the sole purpose of associating the people with the government. Therefore we demand that national elections shall hereafter be kept free from the poison of excessive private contributions. To this end, we favor reasonable means of publicity at public expense, so that candidates may be known before the people for federal offices, may prevent their claims at a minimum of cost. Such publicity should precede the primary and the election. We favor the prohibition of individual contributions, direct and indirect, to the campaign funds of congressmen, senators or presidential candidates, beyond a reasonable sum to be fixed by law for both individual contributions and total expenditures, with requirements for full publicity. We advocate a complete revision of the corrupt practice act to prevent Newberryism and the election evils disclosed by recent investigations.

Salvage: Recognizing the national addition, especially the spreading of heroin addiction among the youth, a grave peril to America and to the human race, we pledge our selves vigorously to take against it all legislative and administrative measures for education and proper supervision of addicts and their families, and for suppression of crime and fraud.

ENFORCEMENT OF PROHIBITION LAW: The republican administration has failed to enforce the prohibition law, is guilty of inflicting liquor permits, and has become the protector of violators of this law. The democratic party pledges to respect and enforce this constitution and all laws.

THE RIGHTS OF THIS STATE: We demand that the rights of the state shall be preserved in all their vigor and power. They constitute a bulwark against the encroaching and destructive tendencies of the republican party.

We condemn the efforts of the republican party to nationalize the functions and duties of the states, to destroy the texture of the bureaucracy, the creation of unnecessary bureaus and federal agencies and the multiplication of offices and officeholders.

We demand a revival of the spirit of local self-government, and the preservation of the free institutions of our republic.

STATE EXEMPTION: We pledge ourselves to maintain our established position in favor of the exemption of the states from federal taxation, and to oppose any legislation that limits the production of the states by limiting the amount of power to be used in their manufacture.

Conservation of Credit and Currency: We denounce the recent cruel and unjust contraction of credit and currency, which was directly due to the so-called deflation policy of the republican party as declared in its national platform of June, 1920, and in the speech of acceptance of its candidate for the presidency. Within eighteen months after the election of 1920 this policy resulted in withdrawing ten billion dollars and discounts by over \$100 billion of dollars and in contracting our currency by over fifteen hundred millions of dollars. This contraction of credit and currency has caused thousands of farmers and stock growers in America and resulted in widespread industrial depression and unemployment. We demand that the federal reserve system be so administered as to create stability in industry, commerce and finance, as was intended by the democratic party, which gave the federal reserve system to the nation.

Reclamation: The democratic party pledges to continue the reclamation of the public lands and to utilize their resources by reclamation. Homestead entry men under reclamation projects have suffered from the extravagant inefficiencies and mistakes of the federal government.

The reclamation act of 1921, recommended by the fact-finding commission of 1919, was an attempt to the second deficiency appropriation bill at the last session of congress, was eliminated from that bill by the republican conference. The democratic party pledges to carry on the reclamation projects, and to make equitable adjustments for the mistakes the government has made.

Conservation: We pledge recovery of the nation's oil reserves, and all other parts of the public domain which have been fraudulently or illegally leased or otherwise wrongfully transferred to the control of private interests; vigorous prosecution of all public officials, private agents and corporations that participate in these transactions; revision of the water power law, the general leasing act, and all other legislation relating to the public domain, that may be essential to its conservation and honest and efficient use on behalf of the people of the country. We believe that the nation should retain title to its water power and conduct the reclamation, creation and development of our water power.

We favor strict public control and conservation of all the nation's natural resources, such as coal, oil and timber, and their use in such manner as may be to the best interest of our citizens.

The conservation of migratory birds, the establishment of game preserves and the protection and conservation of wild life is of importance to agriculturists as well as sportsmen. Our disappearing natural resource of timber calls for a national policy of reforestation.

Improved Highways: Improved roads are of vital importance not only to commerce and industry but also to agriculture and rural life. We call attention to the record of the democratic party in this matter and favor continuation of federal aid under existing federal and state agencies.

Mining: Mining is one of the basic industries of this country. We produce more coal, iron, copper and silver than any other country. The value of our mineral production is second only to agriculture. Mining has suffered like agriculture and from the same causes. It is the duty of our government to foster this industry and to remove the restrictions that destroy its prosperity.

Regulation of Corporations: Controlling necessities of life. We pledge the democratic party to regulate the governmental agencies the authentic coal industry and all other corporations controlling the necessities of life.

CHARLES W. BRYAN
Governor of Nebraska.

ter power. We favor strict public control and conservation of all the nation's natural resources, such as coal, oil and timber, and their use in such manner as may be to the best interest of our citizens.

Lumber Yard in Evansville Sold
[SPECIAL TO THE GAZETTE.]
Evansville—Martin L. Paulson and company has sold the lumber yard to Edward Stallmacher, Brandon, who took possession Thursday. Mr. Stallmacher has been proprietor of this company since 1909, when he purchased it from the Lovejoy Lumber company, where he had been manager for 17 years. The company had a disastrous fire seven years ago, but was rebuilt into an up to date plant. Mr. and Mrs. Stallmacher and children moved here the first of the week and are settled in the home of Mrs. Elizabeth Lehman on the corner of Liberty and Second street.

PICKEREL RECEIVED FOR EVANSVILLE LAKE
[SPECIAL TO THE GAZETTE.]
Evansville—Twenty-four cans of pickered fingerlings were received Friday by members of the Lake Walton league and planted in Lake Leota. Five cans were received for Gibbs Lake.

MONDAY, JUNE 30.
 Morning—Hudson-Connors wedding.
 Afternoon—The Women's History club, library hall. Luncheon for Mrs. Jeffris and Mrs. Jackman. Mrs. Burnham. Service for memorial services, cemetery.
 Evening—American Legion auxiliary, City hall.
 Y. M. C. A. Mrs. Robert Meek.
TUESDAY, JULY 1.
 Afternoon—Larkin club, Mrs. N. P. Spore.
 Evening—Supper and program, Mrs. W. A. Munn, Country club.

To close the hymeneal month of June, two weddings are scheduled for Monday. Miss Edna Hudson, daughter of Mr. and Mrs. Charles H. Hudson, 642 Center avenue, and Fred Connors, son of Mr. and Mrs. Fred Connors, 552 South Jackson street, are to be united in marriage Monday morning. The wedding of Miss Alice Campbell, eldest daughter of Mr. and Mrs. George Campbell, town of Rock, and Elliott Mueller will also be an event of Monday.

The Young Women's Foreign Missionary society of the Methodist church has the regular monthly meeting, Monday night, at the home of Mrs. Robert Meek, 1116 Oakland avenue. Members of the society are planning a picnic for Monday night at the Barry Jones farm. Mrs. Wayne A. Munn, dramatic reader, is to present the program at the Country club, Tuesday night, following the regular club night supper at 6:30. Mrs. William McNeil is chairman for July. The fourth falling on Friday, the women's golf team will play Thursday instead of Friday, with a luncheon to be served at noon. The Misses Mae Blackless and Olea Bysted will represent the local Young People's society at the annual convention of the eastern district convention, which opens Thursday at Long Lake.

Members of Rock River Community club are planning a community picnic for Friday, the fourth, at the C. E. Dunham woods, on the Madison road. Jean Aker Murries—Friends of Miss Jean Aker will be interested to hear of her marriage to E. C. Runge, Kansas City, Mo., which took place Thursday. The Rev. Mr. Massner of St. Mark's Lutheran church, Broadway avenue and Main street, Kansas City, performed the ceremony. Mrs. Runge is the daughter of Mr. and Mrs. John Aker, 550 South River street and for the past two months has been residing in Chicago. The groom is the son of E. B. Runge, Merrill, Wis., and is a representative of the Parker Pen company.

Mrs. and Mrs. Runge are residing at Miller place 147 East Lincoln terrace, Kansas City, Mo. Bride's Party Given—Mrs. Charles Finley and Miss Katherine Finley were co-hostesses at a 7 o'clock dinner party, Thursday night, at the Finley home, town of Rock. The affair was one of the prettiest of the many recent ones being tendered. Miss Alice Campbell, whose marriage takes place next week. A color scheme of pink and white was effectively carried out with flowers, baskets, place cards and candles. A miniature bride marked the place of the honored guest. Stunts and games were put on and prizes taken by the Misses Mary Finley, Myrtle Keefe and Helen Campbell. A variety shower was given the bride to be.

On Eastern Trip—Miss Frances Rieckman, of the register of deeds office, Court House, is spending her vacation in the east. She is to visit in Connecticut, Ohio, and Buffalo, N. Y., and will return to this city the latter part of next week.

Mrs. Langdon Hostess—Mrs. William Langdon, entertained a company of women, Friday night at her residence, 102 1/2 Oakland avenue. Honoring Mrs. Sheridan—The home of Mr. and Mrs. John Sheridan, 411 South Jackson street, was the scene of a pretty party, Friday night, a surprise, given in honor of the twenty-fourth wedding anniversary of Mr. and Mrs. Sheridan. Eighteen women came with well filled baskets and supper was served following bridges. Prizes were taken by Mrs. James Ryan, Mrs. Arthur G. Metzinger and Mrs. William Hayes. Mrs. Sheridan was presented with a gift by the guests in memory of the occasion.

Postpone Picnic—The picnic which Division No. 5, Congregational church was planning for Tuesday has been postponed indefinitely.

New Arrival—A daughter was born Thursday to Mr. and Mrs. W. E. Broege, 317 Western avenue. She will be named June Elaine.

Legion Auxiliary Meets—Regular meeting of Richard Hills post, American Legion Auxiliary will be held at 7:30 Monday night at the city hall.

Mrs. Haggart Has Club—A two table bridge club met Friday afternoon at the home of Mrs. Harry Haggart, 420 North Terrace street. Prizes at cards were taken by Mrs. William McNeil and Miss Mayne Blank. A picnic luncheon was served at noon.

In Honor of Miss Campbell—Mrs. Albert Nohr, 545 North Chatham street, entertained a company of young women, Friday night complimentary to Miss Alice Campbell whose marriage is to be an event of the coming week. Bunches were played and prizes taken by Miss Elizabeth Campbell and Miss Rose Froden. Roses and peonies decorated the table at which a supper was served at 11 p. m. A gift was presented to Miss Campbell.

Mrs. Merrick Hostess—Mrs. Earl Merrick is entertaining with a bridge luncheon, Sunday, at her home, 407 South Main street.

Gives Farewell Luncheon—Mrs. Arthur Hines, 115 Sinclair street, was hostess Friday at a 1 o'clock luncheon in honor of Mrs. Frank Jackman and Mrs. David Jeffris who will leave next week on a European trip. Covers were laid for 20. Bridge was played and prizes taken by Mrs. Frank Blackett and Mrs. Edward H. Peterson. The hostess presented the honor guests with gifts.

Prize Winners at Bridge—Mrs. H. V. Allen and Mrs. C. S. Jackson were awarded prizes at the meeting

of the Friday club this week at the home of Mrs. Stanley B. Smith, 620 South Third street. Mrs. J. W. St. John will entertain the club in two weeks at the Colonial club.

Mrs. Burnham to Entertain—Mrs. A. J. Burnham, 615 St. Lawrence avenue, will entertain at a luncheon, Monday, complimentary to Mrs. David Jeffris. The affair will take place at the Country club.

Mrs. Munn at Country Club—Mrs. William McNeil will be chairman for the month of July at the Country club. The regular supper will be served at 6:30 Tuesday night preceding the program to be given by Mrs. Wayne A. Munn.

Family Dinner Given—Mr. and Mrs. Norman L. Chris, 515 St. Lawrence avenue, gave a family dinner at the Country club, Friday night. Covers were laid for five.

At J. W. Summer School—Miss Hazel Murray, George Burpee, Kenneth Schmitt, Ivan Lloyd, Edmund Pritchett and Harold Arbutnot will be those attending the summer school at the University of Wisconsin. The session opened Saturday and lasts six weeks.

Jacobson-Clatworthy. A union of Miss Clatworthy, 220 South Franklin street, were united in marriage Thursday at Rockford. Mr. and Mrs. Clatworthy plan an automobile honeymoon after which they will make their home on North Washington street.

The bride who has been employed at the Parker Pen company for some time, was hostess at many pre-nuptial affairs. Mr. Clatworthy is employed by the Wadham Oil company.

At Canton Picnic—Sixty men and women attended the picnic given at the George Waterman farm, east of Janesville, Friday, June 27. The picnic was the usual bride's night gathering of the Canton. Lawn games were played after supper.

Leeder-Thiele Wedding—The wedding of Miss Thiele Leeder, daughter of Mrs. Minnie Leeder, Madison street, and Alfred Thiele, son of Mr. and Mrs. Herman Thiele, of Chestnut street, will take place at 7 p. m. Saturday at the home of the bride's mother. The Rev. S. W. Puch, St. John's Lutheran church, will read the marriage service.

Entertainment at Church—A splendid entertainment, fostered by the Fourth Lutheran church, was given Friday night at Methodist church. Those who took part were Richard Schmitt, Milton College, soloist; Miss Jessie "Cinder" Lindquist, Miss Helen Hultander; Miss Stella Dizon, pianist; Mrs. E. T. Richards, organist and Mrs. Stewart Richards, soloist. Miss Phyllis Luchinger had charge of the program. A silver offering was taken.

Entertain Club—Mrs. J. J. Sullivan, 315 Rock street, entertained a bridge club, Tuesday night. Dinner was served at 6:30 at Cozy Inn followed by cards at the Sullivan home. Prizes were taken by Mrs. Paul Kiehoff, Mrs. Fred Palmer and Mrs. J. P. Krenke.

Reading Club Meets—Mrs. W. P. Taylor, 212 Jackson street, was hostess to the Reading club, Friday afternoon. Tea was served following an informal social time. Miss Charlotte, Evanston, Ill., home guest of the club. Mr. Loveloy, Sr., was among the guests.

Five hundred was played and prizes taken by Mrs. W. Kramer, Mr. and Mrs. G. J. Hill, Mr. and Mrs. Long and E. Wurtz. Mrs. Mesner was presented with a gift.

Mr. and Mrs. Zigler, Beloit, were guests from out of the city.

History Club to Meet—A special meeting of the Woman's History club will be held at 3 p. m. Monday at Lincoln hall to plan for next year's program.

Scouts Present Novel Display

More than 11,000 pieces of glass, iron, bottles and other tin destroying materials have been collected by Troop 10 of the Boy Scouts and is in display over the week-end in the old Putnam furniture store on South Main street.

The debris was collected by the 10 boys of the troop, only upon the main streets of the city and should eliminate much tin trouble in the future. Leslie Dork, 1524 Carleton street, was awarded a fountain pen for collecting the most number of pieces. The pen was donated by Russell Parker of the Parker Pen Co.

Troop 10 will depart for a week's camping trip at Lake Koshkonong Sunday, July 6. The troop is in need of a canoe and any person possessing one is asked to get in communication with Daniel Voss, scoutmaster.

FOUR ARRESTED FOR THROWING FIREWORKS INTO PASSING AUTOS

Four first ward boys were arrested by police Friday night charged with throwing lighted firecrackers into street cars upon Washington street. The boys appeared in municipal court Saturday morning and were lectured by Judge H. J. Maxwell. They were ordered to reappear next Saturday. Chief Newman announced Saturday that further arrests will be made if additional complaints regarding boys in the ward are received.

City News Briefs

Campers Home Tuesday—Rock, Green and Watworth county rural and small town boys, who have been camping at Phantom lake since June 12, two weeks ago, will return to their homes Tuesday.

Meeting Postponed—The meeting of the domestic club, which was to have been held Saturday at the home of Mrs. Van Eds Green, Edgerton, has been indefinitely postponed.

No Services Sunday—On account of the Luther League convention at Clinton Saturday and Sunday there will be no services at the First Lutheran church here Sunday. It was announced by the Rev. T. C. Thorsen, pastor.

Enjoyed Janesville—"I had a wonderful time while in Janesville and got home safe and sound," writes James E. Bailey, Co. 5, soldiers' home Milwaukee, in telling of his trip to the annual G. A. R. encampment here last week.

CITY Hires Rat Catcher.—At Natchez, Miss., rats are so numerous that the city has had to hire a rat catcher. Civic and commercial bodies have joined in the campaign to rid the city of the pests, which have done thousands of dollars worth of damage.

Eighty-five per cent of the population of Jugo Slavia are peasants.

'Twas Love at First Sight, but She Looks Again, Asks Freedom

Mrs. Ella M. Beckham Lowther.

[SPECIAL TO THE GAZETTE]
 Washington—They met at a dance during the Easter holidays at the naval academy at Annapolis. He was handsome and she was young, less than 18, alive to romance. It was a case of love at first sight. But she looked again.

THE COMFORT BEAUTY SHOP

NEGRO FUGITIVE TAKEN IN ILLINOIS

"Josh" Adkins, Alleged to Have Stolen Garment Here, Is Arrested.

"Josh" Adkins, negro forger and robber, wanted by both the police of Madison and Janesville, was arrested in Watsega, Ill., this week, charged with auto theft. Adkins is wanted in this city for the robbery of an overcoat from Arthur Buckner, colored waiter at the Grand hotel, here, this winter. He was chased by Buckner, but escaped.

Adkins was sentenced to the Green Bay reformatory in 1921 by Judge A. C. Hopmann in Madison. Some months later the negro was paroled, violated his parole and was returned. Upon the termination of his sentence, he returned to Madison, escaped a warrant for forgery, came to Janesville, where he stole the overcoat and then returned to Madison, where it is reported he lived in the negro section for some months.

For the past few months, Adkins has been living in Chicago. He was recently arrested for implication in the theft of an automobile at Highland Park, Ill. Information regarding his whereabouts in Chicago was given Madison police by Janesville friends of the man. Adkins will be tried in Madison on robbery and forgery charges. It is also possible that the local court may be pressed against him.

ASSISTANT CHIEF NEXT ON VACATION

Police Sgt. Charles Handy will return to duty Sunday after two weeks' vacation. Assistant Chief Thomas Morrissey will start his vacation Monday. His place upon the night beat will be taken by Charles Dickinson who has been substituting for Handy. Chief of Police Charles Newman recently transferred Patrolman Peter Champion from his beat on the east side of the river to the middle beat on West Milwaukee street. Champion has been replaced by Officer James Ward.

WHEN BEAVER DAM MAN Whitworth—Miss Lella Mae Barthol, a graduate of Whitewater normal, was married at Ripon, Tuesday, to Alfred Blackwitz of Beaver Dam by the Rev. P. C. Kohn, Ripon. The bride has been teaching for three years at Randolph and Hayward. Mr. Blackwitz is in business in Beaver Dam and they will reside there.

HOUSEHOLD FURNITURE SALE at the farm home of the late Jennie Cleland, Wednesday, July 2nd, at 12:30 P. M., Town of Center. —Advertisement.

Chinese women are partial to jade earrings, believing they bring good luck.

"I SEE BY THE GAZETTE"

COMING EVENTS.
 MONDAY, JUNE 30.
 Morning—Board of Review, City hall, 10 a. m.
 Evening—Wisconsin lodge No. 14, Odd Fellows, East Side hall, 8 p. m.

3 SISTERS ARE GRADUATES

Upper left—MISS JOAN MUGGLETON
 Upper right—MISS ESTHER D. MUGGLETON
 Lower left—MISS PRISCILLA MUGGLETON

With three of their five daughters graduating within a week, Mr. and Mrs. Charles Muggleton, 143 Jefferson avenue have been kept busy the past fortnight attending commencement exercises at Vassar college, Poughkeepsie, N. Y., at Princeton academy and preparatory school, St. Louis, Mo., and at the University of Wisconsin, Madison.

Miss Priscilla, who was graduated from Principia two weeks ago, is to enter the University of Wisconsin in the fall. Monday Miss Esther Muggleton was graduated from the University of Wisconsin with 11 other local young people. She was a student at the college of letters and science and a member of Kappa Kappa Gamma sorority. She is also a graduate of Principia.

Miss Joan Muggleton was graduated from Vassar last week. Her mother went east for the commencement exercises.

RAILROAD LABOR SEEKS CANDIDATE AMONG DEMOCRATS

(Continued from Page 1)
 not be issued in all probability until a caucus comes in the fall.

The railroad brotherhoods are understood to take the view that as between President Coolidge and a democratic candidate expressly favorable to their viewpoint, all forces should concentrate on the support of a democrat and avoid wasting any votes on a third party ticket.

But there are democrats here who take the opposite view. They want a third party in the field, believing that such a contingency might split the republican party this year as in 1912 and thus insure democratic success. The friends of the conservative candidates in the field here have said all along that with LaFollette running a democratic candidate would be the beneficiary provided he was not a radical. They have argued that a radical democrat would win only the radical democratic votes while the radical republican votes would still go to LaFollette, and that even if the Wisconsin senator didn't run the combined radical vote of the republican and democratic parties would not be sufficient to assure victory for a democrat.

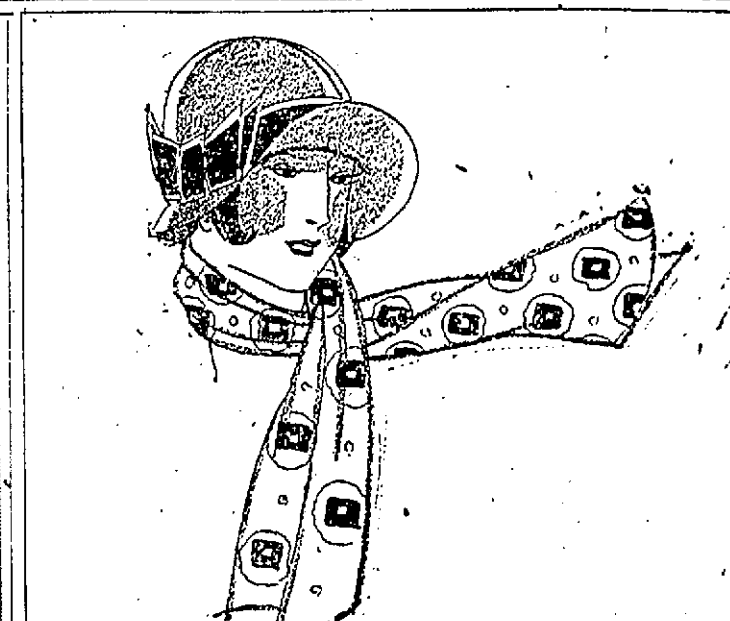

However that may be, the railway unions have taken a hand in the struggle. Davis Leaders Hopeful
 The friends of John W. Davis are very hopeful now as the deadlock between the leaders grows more and more certain. In opposition to the idea that Mr. Davis was counted for the Standard Oil company comes the statement from his supporters that he has recently won for organized labor

its biggest victory in the supreme court—a sign that he is merely a lawyer and not a partisan of either capital or labor.

At dances and parties and teas, I always feel quite at my ease, I never perspire, for I have acquired The O-So-Dry habit. It's such a relief!

When Milady Goes a-Shopping

She who vacations or week-ends at Del Monte, Hot Springs, or any of California's fascinating resorts, needs must include in her wardrobe several pairs of white kid and black satin slippers, for June footwear reads a faithful path of ornate designs and patterns. Gypsy models, shaded effects, sandals and trim little slippers, last year's favorites attractively to summer footwear. Miss Chicago, a smart, white kid slipper with Cuban heel and daintily cut-out vamp and single elastic strap, is also to be a popular number this summer and is being featured at Rehnberg's. (Very round toes, low heels and a network of suede straps form the nucleus of this dainty black satin slipper, known as the "Technique". Dainty criss-crossing straps of patent reveal a glimpse of sheer white silk beneath the lace. The variety of white kid sandals with Cuban heels and triangular cut-outs is as infinite as it is unique and may be found in all its intricacies at Rehnberg's.

I am sure there is nothing that would bring greater joy to a bride than something which will lighten the burden of that daily task—the first meal of the day. It either starts out like a "whiz-bang" with everybody sweet and happy or buttermilk and rich syrup, any bride is sure to make a killing with such waffles. As with the pancake griddle, there is no smoke contend with, making it possible to make and serve the cakes or waffles piping hot right on the dining room table. Both appliances have nickel plated standards and trays in which the waffles are cooked. The Electric Co. makes an unusually deep and crisp waffle, thoroughly cooked and evenly browned. When spread with lots of butter and rich syrup, any bride is sure to make a killing with such waffles. As with the pancake griddle, there is no smoke contend with, making it possible to make and serve the cakes or waffles piping hot right on the dining room table. CITY PLAYGROUNDS OPEN FOR SUMMER

700 Attend Flag Raising Ceremonies at Five Schools on Friday

Attendance at the five city playgrounds for the opening exercises Friday forenoon totaled more than 700, with many adults included. Flag raising, band music and short speeches preceded the regular playground program.

At the Adams school, where Kenneth Bick and Margaret Bick are in charge, 120 children and 40 parents and friends were present when Mrs. Harold Green gave a short talk, welcoming them at 10 a. m. The high school uniformed band, arriving by truck, played "The Star Spangled Banner" as the flag was raised, and concluded the program with several other selections.

Sixty children and several adults were present for the opening at the Jefferson school, where nearly the same program was given. On account of the small number of parents present, no talk was given. Walton Lane and Ruth Bailey are in charge. A baseball game between boys and girls was planned for the afternoon.

Supt. F. O. Holt gave the welcoming address at the Webster playground, where 200 children and a large number of parents congregated shortly after 10 o'clock. The committee in charge of the program, consisting of Mrs. D. J. Luby, Mrs. Peter Kelly and Mrs. E. J. Worthington, were also present. Harold Roosevelt and Harold Fellows are in charge.

One hundred and twenty-five, 65 boys and 60 girls, besides several parents, were at the Douglas school, where the program was arranged by Roland Gridley and Priscilla Muggleston. Mrs. Bartley gave a short talk at 11 a. m. which followed the flag raising. A band concert was also given. Friday afternoon was taken up with the organization of teams for regular activities.

A large number heard Mrs. E. J. Manning talk at the Washington grounds, following their opening ceremony, including the flag raising at 10:30 a. m. Roland Meyer and Elsie Ward are in charge there.

Activities start at once. Supt. F. O. Holt, president of the board of education, Supt. F. O. Holt and Director Arthur Wheeler, attended each opening.

Summer activities will begin at once and organization of teams for the various events will take place at most schools Saturday or Monday. Most of the new equipment for this summer has been installed, and the old has all been repaired. New chairs were placed in all swings Thursday, making them entirely safe. The slides and teeters have also been repaired. New steel teeters have been ordered for the Webster and Jefferson grounds.

According to the present plan, the grounds will be open on Monday, Wednesday and Friday evenings, but this will be kept up only as long as they receive sufficient patronage to make it worth while, according to Mr. Wheeler, the director. Unless a reasonable number of children attend, the directors at the various schools will not be asked to stay evenings and have equipment at their disposal.

Regular band classes for beginners will be started next Friday morning. It is stated by E. C. Jack, instructor. The schedule has not yet been arranged.

Speakers' Use Interest Supt. Holt, in his talk at the Webster grounds, recalled the fact that many splendid athletes in the local high school were products of the Webster school district, and attributed a part of their success to playground training. Daily attendance is valuable, he said, and it is important that the children should be encouraged to go to school, to have credit for the good showing to the women's committee which has been at work there.

The value of the playgrounds as an investment was stressed by Mrs. Manning, speaking at the Washington. "It costs somebody a lot to keep the playgrounds in shape," she said, "and unless they are well attended and used, we are not going to realize on our investment."

Mothers were urged to accompany their children to the grounds in the talk of Mrs. Harold Green at the Adams school. Mrs. Bartley spoke at the Douglas school, urging a large attendance this summer.

Much appreciation was shown the high school band, which played the national anthem as the flag was raised at each grounds, and followed it with a 20-minute program. Stewart of the Chevrolet, and E. Kellogg of the Samson company arranged for the two buses which transported the organization.

HOUSEHOLD FURNITURE SALE AT THE PALM HOME of the late Jennie Cleveland, Wednesday, July 2nd, at 12:30 p. m., Town of Center. Advertisement.

BRODHEAD

Brodhead.—Methodist Episcopal Sunday school, 21st m. topic, "The Party"; special music; prayer meeting, Wednesday night, course of religious instruction, theme, Acts 3. At 7:30 p. m. will continue the course of religious instruction, theme, Acts 3. At 7:30 p. m. will continue the course of religious instruction, theme, Acts 3. At 7:30 p. m. will continue the course of religious instruction, theme, Acts 3.

Congregational: Sunday school, 8:45 a. m.; preaching, 10:30 a. m.; topic, "The Missionary Work of Our People"; leader, Stuart Mitchell; preparatory service, July 2, 7:30 p. m. Any desiring to unite with the church either by letter or by confession of faith, should speak to the pastor at once.

Persons. C. E. Doolittle, Stoughton, was here Friday.

A. S. Myers, Monroe, spent Thursday in Brodhead.

Mrs. C. J. Lyons and Miss Lyons spent Thursday in Brodhead. Mr. and Mrs. Harry Scherbert are home from an extended wedding trip. Members of the Chautauque club picked up at Monroe, Thursday.

Mr. and Mrs. H. E. Davis are contemplating a several weeks trip west in their new auto.

Mrs. Lee Jones is convalescing from a recent operation in the hospital at Monroe.

Miss Ethel Dudley, Chicago, arrived Thursday to spend the summer at the home of her cousin, Mrs. Paul Zimmerman.

Miss Doris Skason, who had an operation for appendicitis at the hospital in Jamesville Tuesday, is improving.

Ernest Luth Marsh and Margaret Engelhardt have the chicken pox.

Albert Zuercher, Toledo, O., was here Thursday to make a brief visit to his parents and brothers and sisters.

The Washington-Illado exhibit car is here to remain until Monday. The display of fruit are wonderful.

Brooklyn Y. M. C. A. now has 10,000 members.

BRYAN PRAYS AND CALMS COMMITTEE

(Continued from page 1.)

number of small conferences seeking to get out of the difficulty, which had completely overshadowed the controversy over the league of nations plank.

Whether the league of nations declaration would be carried to the floor depended on the decision of Newton D. Baker, secretary of war in Wilson's war time cabinet. The committee had adopted 24 to 16 a composite plank calling for a national referendum on American membership in the league. Mr. Baker, however, had stood firmly though practically alone, for an unequivocal declaration of the party. It given control of the government to take immediate steps to bring the United States into the league, and had prepared a report for presentation to the convention which had not, in an early hour, made known definitely whether he would, when the time came, take such a course.

16 Names Presented: The last of the preliminary formalities of the convention were closed away yesterday and at 8:15 a. m. 16 names were formally before the delegates today as candidates for the presidential nomination.

The week of steadily accelerated maneuvering apparently had brought about no material change in the deadlock situation involving the vast field of candidates. William G. McAdoo of California, Gov. Alfred E. Smith of New York, victor of the last 16 the number of pledged votes for the opening ballot and numbers of each maintained claims of success.

Spokesmen of dark horses candidates, meanwhile continued to express pleasure over the situation and confidence in the outcome with the list of candidates formally before the convention today included:

Oscar W. Underwood, Alabama. Joseph T. Robinson, Arkansas. Wm. C. McAdoo, California. William G. McAdoo, California. Samuel M. Houston, Indiana. Jonathan M. Davis, Kansas. Albert C. Eide, Maryland. Woodbridge N. Ferris, Michigan. David P. Houston, Missouri and New York.

Charles B. Bryan, Nebraska. Fred S. Brown, New Hampshire. George S. Sizoo, New Jersey. James M. Cox, Ohio. Walter Glass, Virginia.

J. W. Davis, West Virginia and New York.

ATTEND OPENING OF NEW MADISON HOTEL

Mr. and Mrs. William McNeil and Mrs. Anna McNeil of the Grand hotel, were present at the formal opening of the new Hotel Lorraine in Madison Friday night. More than 200 hotel managers and owners from all sections of the state attended the celebration. The Hotel Lorraine is owned by the Hotel Wisconsin Realty company and is located on West Washington avenue. It is considered one of the finest hotels in the state. E. J. McDonnell is the resident manager.

FREAR FILES FOR AUTUMN PRIMARIES

Madison.—To Congressmen James A. Frear of Hudson, goes the honor of being the first candidate for state or congressional office to file nomination papers for the September primaries. Congressman Frear has filed complete petitions with the secretary of state for reelection. It was announced today. Petitions for various state officials are coming in rapidly but will not be filed until the required number are obtained. Candidates have until July 29 to file nomination petitions.

ST. PETER'S BIRLE SCHOOL TO OPEN

The summer Bible school for children of St. Peter's Lutheran church, South Jackson and McKinley streets, will open at 9 a. m. Monday to run through the month of July. Sessions will be held four mornings a week. The faculty will be the same as last year. Children from 7 to 12 years of age are eligible as pupils. The Rev. L. H. Putz, Chicago, will supply at services Sunday mornings.

YOUTH NO CONFIDENCE

Home.—Opposition deputies passed a resolution of no confidence in the government after listening to the socialist leader Turati enliven the murdered deputy, Matteotti.

Edmund McDonald Fitchett was among the 1,700 University of Wisconsin graduates receiving degrees at Madison, Monday. The commencement exercises were held in the stock pavilion of the college of agriculture and attended by thousands. The list of Jamesville graduates includes:

Richard William Farnsworth graduated from the college of letters and science. He was a member of Phi Gamma Delta Fraternity, Skull and Bones club, and Harvard football club. He will enter the medical school of Harvard university next fall.

Edmund McDonald Fitchett, also graduated from the college of letters and science, majoring in chemistry. He was a member of Delta Sigma Phi Fraternity, Chemistry club and Little club. He will enter the medical school of Harvard university next fall.

William H. Feirn, graduated from the college of engineering. He was a member of the American Society of Mechanical Engineers and Theta Xi Fraternity. He was also a member of the water basketball team.

Sarah Janet Lamb received her degree from the college of letters and science. She attended Beloit college her first year and majored in French at Wisconsin. She was a member of the Y. W. C. A., Badger club and S. G. A.

Otilie Oestreich completed her work in the home economics school. She was a member of Phi Omega Psi, S. G. A. and Y. W. C. A.

Kenneth Kohler graduated from the course in commerce. He was a member of Delta Sigma Phi Fraternity, and will return to the college of commerce advisory commission.

Harold Hopkins Persons was the only Jamesville boy to receive his degree in law. He attended Beloit college his first two years, where he was a member of Sigma Chi Fraternity. He was also a member of Phi Delta Phi law fraternity.

Ernest E. Taylor graduated from the course in engineering. He was a member of Theta Chi Fraternity, Commerce club, Homecoming committee and university advertising club.

Leo Francis Dugan also graduated from the course in commerce. He took sophomoric high scholastic honors and was elected to Phi Beta Kappa in his junior year. He was a member of the Menard team committee, Delta Sigma Phi Fraternity and commerce advisory committee.

ONE CAMP PERIOD
FOR GIRLS' PLAN

Committee Decides to Combine
Rotaride Outings Into One
Big Gathering.

Junior and senior camp periods will be combined by the Y. W. C. A. in one big outing scheduled for July 30 to August 9. Extra tents will be provided so that Camp Rotaride will afford accommodations for 70 girls during this period.

It is thought that a larger camp will prove more interesting to the girls and reduce the amount of effort required from Y. W. C. A. workers and committee members.

Counselors secured thus far are the Misses Isabelle Pomeroy, Adeline Pomeroy, Genevieve Jensen, Freda Woldendyke, and Doris Clough.

The program committee in composed of Mrs. A. R. Glancy, Mrs. Mason Huchette, Mrs. Frank Scribner and Mrs. E. J. Haunerson.

Reelect Officers
of State Firemen

Reedsburg—The Wisconsin State Firemen's association tournament came to a close here Friday night after one of the most successful in its history.

Officers of the association for the coming year re-elected are William Wippenman, Portage, president; William Rieder, Whitefish, first vice president; August Lutenberg, Keshena, second vice president; John West, Barron, treasurer; John Kienzie, Dodgeville, corresponding secretary; and H. H. Stuever, Portage, state organizer.

SOCIAL WORK GROUP
TO MEET JULY 8

The quarterly meeting of the Rock County Conference of Social Work will be held at the court house, Tuesday, July 8.

It is desired that so far as possible organizations that plan to join the conference will do so in advance of the meeting.

Individuals interested in social welfare are invited to attend the conference.

Standing committees will be formed at the meeting July 8 and organization of the extension committee.

One of the committees to be formed will have as its task the investigation of poor relief administration and cooperation with county authorities in the interest of an efficient system.

Other committees will be concerned with the following topics: Education, recreation and amusements; health and social welfare; health, public affairs, and law enforcement.

SALVATION ARMY
OFFICERS PLAN TRIP

Capt. and Mrs. George Boile of the Salvation Army will leave the first of the week for a vacation trip to Niagara and Cuba.

They will go to Green Bay en route to take a small boat to relatives in that city. The mother of the child is in the county hospital here and he has been under the care of the Salvation Army for some days.

Miss Frances Allen, who was graduated from the Salvation Army training school in Chicago, June 22, has been assigned to the work here, and will be in charge of headquarters during the absence of Capt. and Mrs. Boile.

Attendance at the day nursery has been smaller than usual during the past two weeks, said to be due to a shortage of employees for women.

Former Newspaper
Writer Is Dead

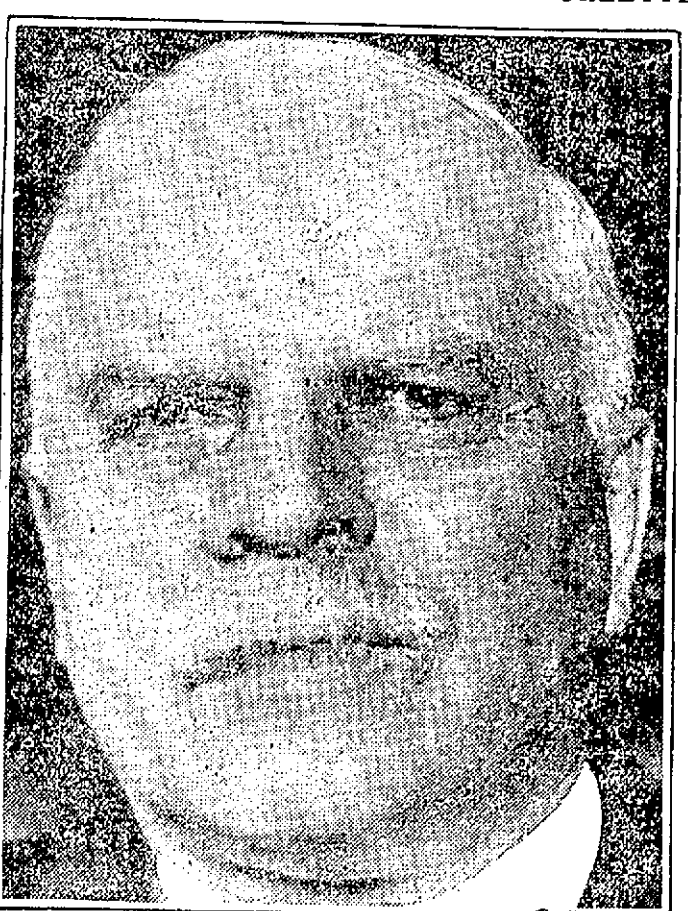

Oshkosh—Charles L. Kennedy, newspaper writer and more recently assistant steward at the Northern State hospital at Winnebago, died last night of a stroke of paralysis. He was born in Oshkosh in 1874. For years he was employed as a writer on the Milwaukee Sentinel, the Milwaukee Daily News and other newspapers. The funeral was held Saturday.

GERMANY ADMITTED
TO WORLD CHAMBER

Paris.—Germany has been admitted to membership in the International Chamber of Commerce.

The motion admitting Germany was made by one of the Belgian members and supported by Etienne Clementel, French minister of commerce, and by the cabinet.

The motion was adopted by the council of the chamber unanimously.

RAIL ENGINEERS' CHIEF PUT FORWARD
AS RUNNING MATE FOR LAFOLLETTE

Warren S. Stone, head of the Brotherhood of Locomotive Engineers, is being prominently mentioned as a running mate for Senator Robert M. LaFollette on a third party ticket. In a reorganization of the engineers' brotherhood, just completed, Stone is relieved of his duties of personally directing the labor activities of the organization, in order that he can devote more of his time to its financial operations, which include banks and trust companies in several cities, a coal mine, cooperative store and an investment corporation.

BAINBRIDGE COLBY
TO LEAD CONFLICT
TO NAME K. K. K.

(Continued from page 1.)

District Society
Chooses Officers

(Special to the Gazette)
The Women's Home Missionary society of the Janesville district elected officers Friday afternoon at the close of the 16th annual meeting here. Miss Abbie Norton, Watertown, president; Mrs. Harry Ebbott, Port Atkinson, vice president; Mrs. C. P. Ketchum, Janesville, corresponding secretary; Mrs. Blanche Tower, Beloit, recording secretary; and Mrs. Albert Will, Port Atkinson, treasurer.

Secretaries of the various departments are: Young peoples, Mrs. H. H. Brown, Beloit; children, Miss Mildred Ponder, Port Atkinson; Miss George Ponder, Port Atkinson; evangelism, Mrs. W. C. Ebbott, Port Atkinson; temperance, Mrs. W. W. Hackett, Whitefish; literature, Mrs. H. Goodman, Whitefish; stewardship, Mrs. William Bingham, Lake Geneva.

The meeting next year will be held at Sharon.

Monticello

Monticello—There will be no fourth of July celebration in Monticello and its vicinity as expected to go in June numbers to Albany, Belleville, Evansville and Blanchardville, where all day programs have been arranged.

Considerable damage was done to property in this vicinity by the storms of the past week, and Monticello residents were subjected to some inconvenience by the disruption of train service for a day and a half when a large portion of the road between New Glarus was washed out.

Train service stopped while workmen repaired the road. William Birch, proprietor of the gasoline filling station, was one of those who suffered considerably from the storm, water backing up on the sidewalk and such a high tide entered his gasoline tank in which 25 gallons were stored.

This gas was pumped out after motorists made the discovery that the gasoline would not work properly.

A large attendance at the annual school meeting of the village of Monticello and the towns of Monticello and Washington, to be held Monday, July 1, is expected. It is the important meeting of the year when officers will be elected and school matters discussed.

The board of review meets Monday June 30, at 9:30 a. m. at the village hall when assessments will be reviewed, according to announcement by S. B. Richman, village clerk.

Monticello's fire department is expected to blossom out soon in new blue serge uniforms with caps to match, an order having been given by the village board. It is hoped they will arrive in time for the annual Southern Wisconsin and Northern Illinois Firemen's tournament.

One of the first visits in 25 years when he was in Monticello business man Joseph Nutting, now of Madison, was here Monday. He is now employed in the circulation department of a Madison newspaper.

Mr. and Mrs. R. W. Waelter have returned from Green Lake where they attended the annual convention of the Wisconsin Pharmaceutical association.

Green Day—Dave Lippert, 33, secretary of the Green Day Labor Temple association, shot and killed himself.

St. Peter's Evangelical Lutheran—Corner South Jackson and McKinley streets. Sunday school at 10 a. m. The Rev. L. H. Pitz, Chicago, will supply. Summer Bible school opens at 2 p. m. Monday, in Sunday school rooms.

Reduced rates on freight over 100 pounds in weight are given by a Holland airplane service.

Norway's strike is estimated to have cost the country over 100,000,000 crowns.

A Texas woman has a wholesale and retail business for the buying and selling of snakes.

All elements of the Declaration of Independence were not affixed until August 2, 1776.

Due to fire danger, gas filled toy balloons are prohibited by the London county council.

Corn cob pipes may be equipped with match sticks if the patent recently taken out by a western man is adopted.

Paris has composed of motorcycles with side-cars elaborately outfitted in sedan style, are being used in California.

Collection Start Tuesday—The city water department is arranging for the mailing of some 4,000 bills Monday night to be delivered Tuesday. The quarterly collection period opens Tuesday and will continue to July 16.

To Glacier Park—J. K. Jensen, president of the city council, and his wife expect to leave next week on a vacation trip to Glacier National park.

Electrician Inspector Here—A. C. Schultz, Milwaukee, electrical inspector of the Wisconsin inspection bureau, spent Friday in Janesville with City Building Inspector George Slightman, conferring on state and local electrical codes.

Smithton Club Is Well Represented—Twenty-two members of the Smithton Community club, town of Bradford, drove to Madison Thursday for the annual convention of the state university. Each car carried a large sign, "Smithton Community Club." The following were in the party: Mr. and Mrs. W. C. Peltch and family, Mr. and Mrs. Robert Peltch and family, Mr. and Mrs. Henschel and family, Mr. and Mrs. Gus Carlson, Messers, and Messrs. Reinde, Oliver and William Farnham, Reinde, Harry Toberson and Steve Seiler, Mrs. L. A. Smith and Agnes McIntyre, Raymond Seiler, Lloyd Henry. Miss Laura Smith is president of the club and it was largely due to her efforts that such a large delegation was enlisted for the trip.

Hospital Sisters Home From Meeting—Delegates representing the local hospital, who have been attending the Tri-State hospital convention held in Madison this week, returned Friday. Those who went from here were Sister M. Vincent, Sister M. Bernadette, and Sister M. Carmelia. Another hospital convention will be held in Oronowoc next week, at which some local delegates may attend.

Fire Department Watches Blockades—With a down-pour in various parts of the city, the fire department is keeping in touch with the situation and will know what routes to follow in case of alarms. Chief C. J. Murphy makes a tour of the city every night to note what new barricades have been erected and what streets have been reported and gives full instructions to the truck drivers.

Field Secretary Speaks—Miss Stella M. Jordan, field secretary of the Congressional Educational Society, will share in the service at the Episcopal Grace Congregational church, at 10:30 a. m. Sunday.

Correction—Item appearing in Dredrick's advertisement on page five in yesterday's issue, reads, New Potatoes, 50c peck, 1 lb. 25c. Should have read, New Potatoes, 50c peck; 1 lb. 25c. Advertisement.

GIRLS SHOULD BE FORCED TO WORK.
AVERS SOCIETY BELLE, NOW A TOILER

Miss Elizabeth Merchant, member of a prominent New York family and herself active in society, believes that earning a living should be as compulsory for unmarried women as military service for men, and she has gone to work in an antique shop in New York at a salary of \$20 a week. "Men are tired of idle dumbbells," she avers.

OF INTEREST TO WOMEN
Rumanian women are declared to have the prettiest feet in the world, and Polish women the prettiest hands.

Miss Helen Smith is employed as an industrial engineering expert by the Rochester (N. Y.) Gas and Electric Corporation.

In England women in Parliament are now being succeeded by women in the pulpit. One of the pioneers in this connection is Mrs. Pickles, who was the first of late husband, the Rev. Albert Pickles, who is now in charge of a prominent Congregational church in Liverpool.

Power classes of Mexico use practically no milk.

Herriot Periled
AS SOCIALISTS BALK
(BY ASSOCIATED PRESS)
Paris.—The Herriot ministry was placed in a dangerous position this afternoon when the radicalists refused to vote appropriations for the forces of occupation in the Ruhr, whereupon the premier proposed the question of confidence and part of the socialists abstained from voting.

MONEY AND MARKETS

Wall Street, New York.—Increasing confidence in railroad prospects and in railroad stocks has been the striking feature of the stock market during the past week. This is clearly based upon the belief that there is no reason to expect adverse legislation now for a good while and upon the favorable traffic showing that many roads are making, notwithstanding the minor reactions in business which have been produced here and there. For the week ended June 7, car loadings show an increase of 50,000. Altogether, therefore, the rails have apparently "turned the corner" in popular estimation and have certainly had a substantial amount of investment as well as of speculative support. Particularly is this true with reference to their bond issues, which have been in great demand from banks desirous of keeping their funds at work to an extent sufficient to return a fair income.

Political Situation Still Open.
The market is, of course, still "political" in the sense that a strong, general desire to find out more about the drift of public opinion before making any extensive commitments that involve the permanent placing of capital. Conditions of the political situation have developed favorably from the standpoint of conservatism and the market is undoubtedly feeling better pleased with the outlook and the situation as it is by the public. As to what the democratic party will do, the outlook is still too uncertain to permit of any positive forecast, and the corresponding influence on

the general trend of prices is accordingly uncertain. There is less fear, however, that the anticipated third party will succeed in drawing heavily on the other organizations, and prospects at present favor a fairly familiar type of campaign, with the odds on the side of President Coolidge. Meantime, the assurance that congress will not be recalled in extra session, and that it will be possible to make the necessary adjustments which would otherwise have been carried in the deficiency appropriation bill have tended to confirm the opinion that nothing further need be anticipated in the way of legislative announcement during this session. Little is to be expected during the short session of Congress, at which it is seldom possible to get the nation on anything more than purely routine matters of business. Apparently, the political situation is thus clearing itself somewhat from the market standpoint, although the closing of the democratic convention will give a definite settlement to some matters which will until that time continue rather vague.

Business Conditions Little Altered.
Business conditions remain very little altered. There has been improvement in some branches of the steel trade, while in others offsetting adjustments have been made, leaving the general situation rather better. Textile conditions are not showing further depression and the same is true of the automobile outlook. Wholesale prices continue to move slightly downward, as shown by the current index numbers issued both by the government and by private

estimators, the present figure being approximately 143, or fully 12 points lower than at this time last year. Agricultural prospects are somewhat improved with favorable weather and better growing conditions of various kinds. Less expensive branches of retail trade continue active, although the more costly elements in distributing businesses are still inactive or depressed. Announcement on the part of the National Credit Men's Association at its Credit Congress that a stronger and more far-reaching buying policy is well warranted undoubtedly reflects the view of conservative business men in a number of different lines. Some changes in the volume of employment are still taking place but the total reduction, excluding seasonal modifications, is not very great.

Financial Ease Maintained.
In some respects the most striking feature of the financial outlook at the present time is the remarkable ease of money which continues to be maintained. Reduction of Federal Reserve Bank rates to 3 1/2% have greatly confirmed and extended the belief that reasonable and abundant funds are likely to continue to be in hand for a good while to come and that as a result investments in securities may be safely made with a fair prospect of profit. This accounts for the advance of liberty bonds to unprecedentedly high levels, the fourth issue going to 102 1/2, while high grade railroad and industrial securities have very generally profited by the desire of different institutions to put some income yielding paper into their portfolios. On the other hand, the reductions in business have necessarily resulted in curtailing the amount of commercial paper placed on the market, with the result that spot rates of the best money are able to command very low rates, thereby rendering the cost of doing business with borrowed capital correspondingly less. Funds have continued to accumulate in Federal Reserve banks, the percentage of ratio for the past week being 82.1%, while heavy importations of gold are still continuing, the total amount of the showing \$40,000,000, with a probable net inward movement of \$425,000,000 for the fiscal year ending June 30. In these circumstances it is hard to foresee anything in the early fu-

ture except continued abundance and cheapness of funds.

Foreign Outlook Clearer.

The one thing which might bring a change in this state of affairs is undoubtedly the foreign outlook, which appears rather clearer than heretofore. The new Herriot Cabinet in France has reaffirmed the policies of its predecessor so far as Germany is concerned and, apparently, is disposed to adhere to very much the same views with respect to the reparations commission's latest proposals. This, to some extent, renders the situation rather easier for a reparations settlement, although it still continues true in Germany that nationalist and other interests are not inclined to accept the Dawes plan without reservation. Meanwhile the action of local banks in beginning the rediscounting of paper offered by German industrialists through the recently established gold discount bank may tend to relieve the situation somewhat, although the amount which can thus be obtained is undoubtedly small. On the other hand, the British money situation is likewise favorable to German and French financing and to that extent tends to keep such operations away from the United States, although the long continued postponement of action as reparations has discouraged some of the British bankers which has made themselves more deeply in German loans of any description. Local financial authorities have not, however, lost hope of achieving some definite settlement of reparations during the current summer and should they do so the demand for our loanable funds would bring about changes in rates and other conditions on this side of the water.

Market Review and Outlook.
The market has maintained its greater activity quite satisfactorily during the past week and, considering the advance which has taken place since the republican convention and the result in profit taking, its power of resistance has been noteworthy. The turnover has been reasonably good most of the time and the technical position has clearly indicated that weak holdings have been quite thoroughly liquidated, the market now being in position to respond to encouraging news.

Extensive buying by the outside public is likely to be deferred until after the democratic convention and until third party prospects can be a little more definitely "sized up." Even after making full allowance for all these conditions there is no denying that the market situation has been decidedly improved. With Wall Street loans so greatly reduced, with a good sized bear account still outstanding, with more money offered than is needed and with the hopeful

feeling which has been created since the Republican Convention, it will be seen that the stock market is really

in a strong position, notwithstanding that business is not all that it should be.

TODAY'S MARKET

Stocks and Bonds Continue Moving to Higher Ground

[BY ASSOCIATED PRESS]
New York.—Stock and bond prices continued their movements to higher ground in this week's market. Trading in stocks started up some what earlier in the week because of the uncertainty regarding developments at the democratic national convention, but there was a burst of activity in both stock and bond markets in the closing sessions.

Professional traders made several attempts to unsettle the general trend, basing their attacks on unfavorable trade news, but prices were carried upward by the steady demand for railroad shares, more than a score of which sold at new peak prices for the year. Most of the steel shares held relatively firm despite the continued lack of any definite indication of either an increase in demand or rolling mill operations. Bethlehem sustained a temporary sinking spell on rumors questioning the safety of the common dividend. Motors and motor accessories were inclined to heaviness. Chain store issues were buoyant on reports of large current earnings.

Oil shares were vigorously attacked on the filing of the governments anti-trust suits against fifty of the leading oil companies, but they made brisk recovery.

FINANCE

Wall Street Review.
New York.—Review of speculative interest in the copper shares was the outstanding development in the market, several of the copper stocks showing new peak prices for the year. Silver prices moved up 2 1/2 to a new 1934 top at 91 1/2. Chain stores and mer-

chandising issues continued to give remarkable displays of strength. Kresge department stores, Jewel Top preferred, Schiele Stores and Associated Dry Goods climbed to 3 1/2 to 5 1/2 points. Sales approximately 500,000 shares.

GAZETTE GOOD TIMES CLUB FOR ALL SCHOOL BOYS AND GIRLS

By FLORENCE SLOWIN HYDE.

Final action on plans for the county play day will be taken at a meeting set for July 3, at 8 p. m. in the M. C. A. building. In the meantime the chairman of each township play day will be furnished with an outline of the tentative plans as suggested at the meetings that have already been held, and will be expected to see that his township is represented at the meeting. The first meeting held on June 11 was called by the County Y. M. C. A., the chairman of each township having been notified by distance telephone. The meeting was called hurriedly in this way in order to arrange for the county play day without further delay following the holding of the last township gathering June 12. Nine townships responded, this number being a majority of the 17 that had held play days with the regulation program of events. Those present at this meeting were unanimous in the sentiment that it would be difficult to get the same from the different schools lined up for a county play day during the

AGNES MONAGHAN
resident, Alumni Association, Rock County Normal School

summer vacation owing to the absence of many teachers. Some favored of having a county play day at all this year, and it was finally decided by a vote of 6 to 2 to set Sept. 19 as a date for the gathering.

Through a misunderstanding, township chairmen were not notified by mail concerning the meeting called for June 25. Hence only those who received the Gazette news story of sufficient notification, were present at the second meeting. There was much discussion at this meeting concerning detailed plans, but only tentative recommendations were presented subject to final adoption or rejection at the next meeting, after having been submitted in writing at the meeting June 25, making a total of three meetings. The township chairmen will receive written notification of the meeting to be held July 3. It is announced by the secretary of the movement that all interested persons are invited to attend and participate in the discussion plans for the county play day. Plans will be decided by township chairmen living to each township an equal voice in all matters regardless of the number of representatives may be present. There is every reason to believe that a county play day can be put over in a big way.

Passed Seventh Grade Exam
Ninety-five one-room school pupils of 49 pupils of state graded schools in the county passed final test given by the county superintendent the same time as the eighth grade diploma exams. These pupils include the following: (List of names follows in the original text)

Jewel Norton and Mildred Meche

War has been declared upon automobile "petting" parties. No more will youthful lovebirds be allowed to park their cars upon the county highways. The new ruling comes from no less a personage than Officer Miller, who has only been in the position to enforce his edicts.

So numerous have "petting" parties become upon the main roads of the county since the advent of summer months that Officer Miller has been compelled to take action for the safety of other drivers not involved with the instant called love. Parking of cars upon the highways without lights has become a common practice within the few weeks, according to Officer Miller. Several near accidents have resulted. Arrests will be made in the future and the offenders haled into municipal court.

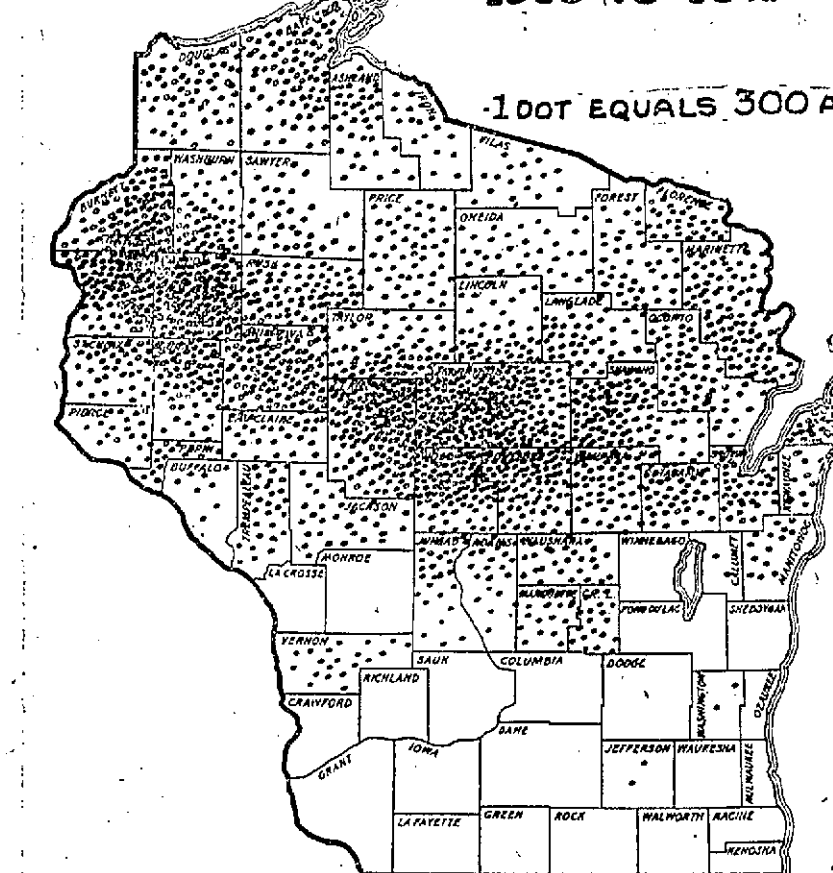

ROAD PATROLMEN DECLARES WAR ON "PETTING" PARTIES

War has been declared upon automobile "petting" parties. No more will youthful lovebirds be allowed to park their cars upon the county highways. The new ruling comes from no less a personage than Officer Miller, who has only been in the position to enforce his edicts.

So numerous have "petting" parties become upon the main roads of the county since the advent of summer months that Officer Miller has been compelled to take action for the safety of other drivers not involved with the instant called love. Arrests will be made in the future and the offenders haled into municipal court.

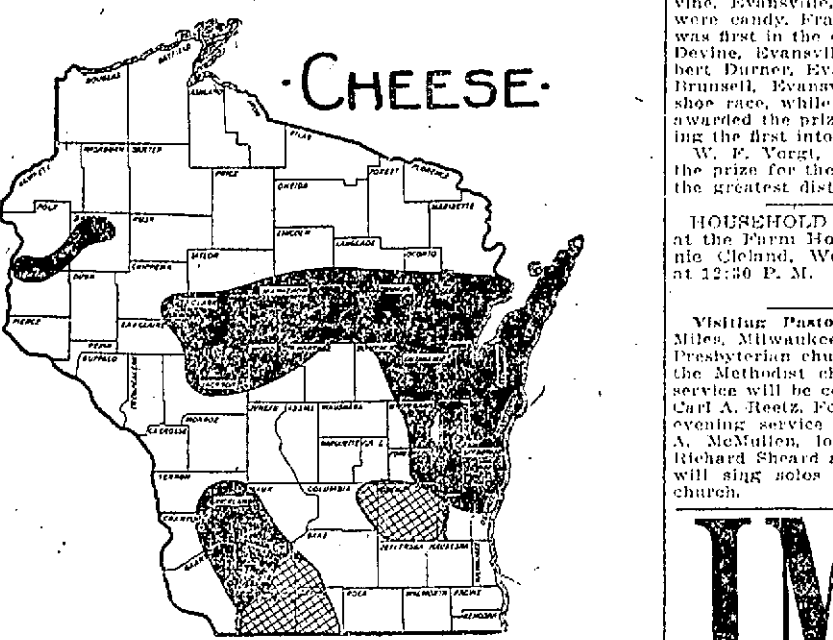

OUR OWN WISCONSIN

—INCREASE IN ACREAGE OF IMPROVED LAND— 1910 TO 1920.

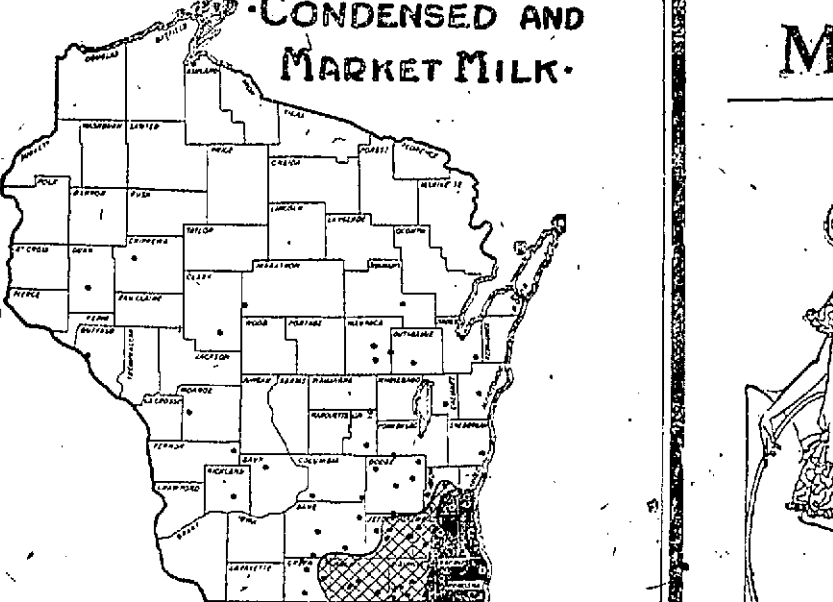

State graded school pupils who successfully passed the seventh grade tests are as follows:
Pulmon—Lorraine Rousch, Tora Staff.
Orfordville—Thelma Omsgard, Stanley Loken, Edith Keese, Jessie Joranson, Hazel Rustad, Elmore Howe, Agnes Gauder, Lida Burness.
Lima Center—Catherine Persons, Elma Hamlin, Anita Kunkel.
Pottsville—Spencer Lacey, Ruth Seck, Dorothy Farnell, Victor McCaffrey, Dorothy Carroll, Franklin Clark, Harry Jones.
Milton—Marie Addie, Kenneth Babcock, Grant Coon, Kathleen Clouser, Betty Davis, Vera Johnson, Edith Dillek, Gladys Carroll, Phyllis Burdick, Edith Severance.
Milton Junction—Frances Villaman, Joseph Horn, Otto Smith, Rollin Stebbins, Hazel Stone, Gladys Sutton, Robert Sherman, Mildred Schultz, Vera Schaepe, Lawrence Richardson, Lucile Handolph, Earl Oshorn, Robert Miller, Gollie Humphrey, Irene Holmes.
Shopley—Marvin Telgeson, Gertrude Lajenski, John Perceval.

In the black shaded areas, butter is the leading dairy product. In the lighter shaded section, dairying is only partially developed, but butter is made.

In the black shaded districts, American cheese is the chief dairy product. In the lighter shaded areas, dairying is only partially developed, but cheese is made.

Milk production in the black shaded area is used in city milk consumption, local or in Chicago and Milwaukee. In the lighter shaded areas, milk is sold mainly to country stores, but to some extent as milk and cream to Chicago. Dots represent the location of dairies.

Steady land improvement in the central and northern section of Wisconsin coupled with the success of Badger diversification is destined to make Wisconsin the outstanding farm state in America. The federal census of 1920 reports an increase of 545,000 acres or 4.6 percent of improved land as compared to 1910. A sane policy of improving that land fit for agriculture and dairying and stock raising and utilizing land unfit for farming for reproducing the once glorious timber of the state will add much to the prosperity of the commonwealth. Land improvement during the last 10 year period in Wisconsin is most marked in the belt extending across the state from Green Bay to Polk county. Wisconsin produces \$188,000,000 in dairy products—53 percent of the total income of the farmers. Wisconsin in truth is the milk pail of America. Forty-one percent of Wisconsin's milk goes into butter, 27 percent into American cheese and 15 percent into condensed milk. South central Wisconsin is largely a market milk section, being within 100 miles of Chicago. The fact that Chicago distributors are now equipping with glass lined tank

RADIO PAINTS VIVID PICTURE OF CONVENTION

(Continued from page 1.)
Inside and outside, had to play and replay "East Side" for all.

Then the radio does not show the delegates as they are. After about six hours, there is not so much attraction about a thousand sweaty men. They are tired, uneasy and bored. They are a big at his first sermon. The women are much better at this sort of thing. I have known women to sit with it, seemed hardly a change in position, for six hours and beat any man in a convention. But man gets peevish and sore and has no way of expressing himself except in cursing words and occasional by a fit fight. You cannot blame a man for getting fully filled up when he has been talked at and talked to for some 16 hours, as have the delegates at this convention. The trouble party, according to their friends, ought to be well damned and dissected and laid out in pieces on the clinic table. Over the radio it was bad enough, but it was not so bad as off the ear pieces and get a rest for a few minutes. Think of a man being there for keeps and no way of getting out except by waiting for the rest of the delegates. The character of the oratory was always about the same. Most everybody said, "We have never only to name a candidate, but the man we named will be the next president of the United States." Whoop-ee!

Of course we could not see the radio. The radio is a good chairman. You do not have to see him in action to know that. You can see it over the radio. You can hear the wallops of the gavel and the senator knocking the heads off two of them Wednesday day. You can also appreciate the fact that he was fed up on the Al Smith stuff when he told the New Yorkers that if he could not get out of New York, he would eventually move to some other city. Congressman Barkley, father of the Barkley bill, changing the rail labor board system, was heard in a voice but he had a half Nelson on the gavel which made the radio jump and was evidently potent for peace and order. Look three days to call the roll of the convention for delegates, hearings back to the music, when Carter Glass was named in a regular whisper of speech by one of the southern anti-binders who have not forgotten the days of the old fashioned Columbian orators, the hand played "Carry Back to Old Time Values." This might be prophetic. No candidate for the presidency or the vice presidency has been nominated by the democratic party since the war, with a few exceptions. South—that old South where slavery was a part of the system of life. Here at this convention are Glass, Underwood and Underwood from the south, Glass and Underwood from the old slave states. Ritchie from a border state and John W. Davis from a new state made from Old Virginia during the Civil war.

Over the radio, one saw or heard little of the Ku Klux Klan, the biggest hunk of the democratic convention and the reason on which it seems to be so hopelessly split. This was reserved for the platform fight today. One may understand that there is a bitter and uncompromising conflict between the old and the new. These elements in the democratic party have always been present for 40 years. The old division was between the free traders and tariff protectionists. The new division was between the north, white leaders, were "protection democrats." Henry Watterson, saying for a free trade platform in 1820, showed "for God's sake" not have the attitude of '88, and Cleveland won his platform fight for a near free trade plank. But later the free traders came rather on conservative ground. Now it is over the Klan and the League of Nations. The democrats have to fight over something inside the ranks. This time there are no differences which all the red rosters and all the cheering by the thousands of "dear" district piled into the convention hall to cheer Al Smith, could not settle. Your hard boiled democrat from Missouri or Kansas is much like his republican brother from the midwest—not once to be reconciled. He buys fewer brick bats than the residents of New York and not easily swayed from his purpose. He takes his politics

CONSISTORY CLUB HAS ANNUAL PICNIC

The annual picnic of the Wisconsin Consistory club, No. 3, was held at Leonard's park on the shore of Lake Koshong, Friday, with 100 members present. A group of games and contests, and a baseball game between Evansville and Janesville members, in which Evansville was victorious, 5-2, made up the amusements of the day. Dinner and supper were served. Among the events were a ladies ball driving contest, won by Mrs. Fred Winston, Evansville, who was awarded a silver thimble; a ladies ball throwing contest, also won by Mrs. Edwards, Evansville; a relay race, Mrs. Edwards first, and Mrs. Herbert Deane, Evansville, second. The prizes were candy. Frank Lowry, Pottsville, was first in the child's relay; Edward Deane, Evansville, second, and Herbert Durner, Evansville, third. Fred Brunell, Evansville, won the men's shoe race, while R. S. Wright was awarded the prize of a dollar for giving the first into the lake. W. F. Vergt, Jefferson, was given the prize for the member coming the greatest distance.

HOUSEHOLD FURNITURE SALE at the Home of the late J. C. McCall, Tuesday, July 2nd, at 12:30 P. M. Town of Center.

Visiting Preachers—The Rev. W. C. Allen, Milwaukee, will supply at the Presbyterian church here Sunday. At the Methodist church the morning service will be conducted by the Rev. Carl A. Reetz, Fort Atkinson, and the evening service by the Rev. Robert A. McMillen, local Baptist pastor. Richard Sheard and Mrs. Fred Meyer will sing solos at the Methodist church.

EVANSVILLE MRS. WALTER S. SPRATLER Phone 414.

Evansville—The local W. C. T. U. held its annual picnic in Leonard Park Friday afternoon. There was a fair attendance, a social afternoon and supper. The Evansville high school band will give its weekly concert on Main street, Saturday evening. The Leonard Park quartet will give a concert at Lake Leona at 8 o'clock. Those who wish to enter their credit work at Rock County fair at Evansville will find it at the county superintendent's office. The work will be left at the county superintendent's office at Janesville until Miss Hazel Murphy, superintendent of rural school department of the fair, shall call for them. Mr. and Mrs. L. M. Cleophas, Beloit, were guests Thursday of Mr. and Mrs. Charles Carter. Mrs. George Carter returned to Madison, Saturday, to be with her husband, who is recovering from an operation at the Methodist hospital. Mr. and Mrs. R. H. Hews and family are entertaining the doctor's family and family, Mr. and Mrs. S. C. Teene and son, Edward, and daughter, Mrs. H. H. Hews, and Mrs. L. W. H. Hews, New Castle, Pa., who are motoring to California. Mrs. Leonard Baker, entertained at a 1 o'clock luncheon Saturday. Guests from out of town were her mother, Mrs. G. H. Hews, and Mrs. W. H. Hews, Madison. Mrs. Josephine Ferguson and Katherine Parkinson, Madison. Mrs. J. A. Howard of the Evansville, Kentucky left Friday for Chicago.

Down in the basement of the Garden, near the place where the hot dog sandwiches and soft drinks are sold, is a room for the newspaper men. There are a thousand of them at New York, divided into those who are merely observers and those who are real, genuine, articles of the press. The room is a room for the newspaper men. There are a thousand of them at New York, divided into those who are merely observers and those who are real, genuine, articles of the press. The room is a room for the newspaper men. There are a thousand of them at New York, divided into those who are merely observers and those who are real, genuine, articles of the press.

Marion Jones, of Beaver Dam, Wis., said in a speech at the second annual convention of the National Educational Association convention opening next week in Washington. Milwaukee—Francis E. Davidson, Milwaukee pastor, has announced his candidacy for secretary of state.

In Wisconsin

Madison—The Equity financial campaign in Wisconsin is a success and the organization will not go into bankruptcy, it was announced at state headquarters. Green Bay—Banyan college camp on Green Bay shore near Marinette will be opened Sunday. Madison—About 100 Wisconsin school officials and teachers will attend the National Educational Association convention opening next week in Washington. Milwaukee—Francis E. Davidson, Milwaukee pastor, has announced his candidacy for secretary of state.

Kindergarten of the Army

Mrs. Neikhor—"But you, your son rather young to join the army?" Mrs. Malaprop—"Well, he is very young, but then, you see, he is only going to join the infantry."—London Answers.

Tapa Spoiled It All

Suitor—"I called to—or—talk—to you about—or—your daughter's hand." Father—"James, tell Miss Helen the man-christ has arrived!"—London Tit-Bits.

Mystery Surrounds Buick's Next Move

Many Rumors Are Being Circulated Regarding a New "Six"

MYSTERY surrounds the plans of the Buick Motor Company for its 1925 year. For the last two or three months rumors have been rife of an announcement of importance to be made in the near future. Now that the summer has started, the industry and the public alike are busy with casting what Buick is doing to the effect that the company is to introduce a new six-cylinder car. As a matter of fact, the company has been generally swinging back to the six cylinder type is one answer for this prediction. And following on this is the fact that Buick, as a leader in the industry, is a naturally favorable position and its present six-cylinder car is another "six."

case, Glenn Ellyn and Sheffield, Ill., to be gone 10 days in the interests of the school. Many Woodmen and their families from here attended the Modern Woodmen picnic in Peatonville, Ill., Saturday. The Foresters' team also attended. The Neighborhood on South First street had a picnic supper on the lawn at the E. C. Spooner home Wednesday evening for their new neighbors, Mr. and Mrs. Calvert Culin. There were tons of the new neighbors and others, followed by games. Dr. Seth Culin, Whitewater, spent Thursday with his parents, Mr. and Mrs. Warren Culin, and attended his sister's wedding. Mr. and Mrs. Matt Ellis attended a funeral in Belleville, Wednesday. Miss Orel Caldwell and four of her sorority sisters of Madison motored to South Baden, Ind., Wednesday, to attend a convention of the Kappa Alpha Theta. They expect to be gone a week. Mr. and Mrs. Clark Covert attended George Carter, Thursday, in the Methodist hospital, Madison. Albert Winn returned home Wednesday from a few days' stay in Chicago. Mrs. A. H. Deek, Madison, spent Wednesday with her daughter, Mrs. Roy La Beach. Miss Golden Salladay, Beloit, is spending this week with her cousin, Miss Elaine Salladay. Misses Ethel Frost, Janet Campbell, Blanche Crow, Alice and Vernell Davis, Blaine Davis and W. H. Johnson motored to Lake Geneva, Thursday, and visited Mrs. Joseph Blaine and family. Mr. and Mrs. A. J. Decker and family are moving to Madison next week. Miss Ava Buxton, Janesville, is visiting at the Hugh Hume home. Mr. and Mrs. T. C. Richardson, Mrs. Alice Richardson and Miss Eleanor Andrews attended the Old Settlers' picnic, Thursday, at Cookville. Mrs. L. R. Denton and daughter, Mrs. H. W. Mower, Minneapolis, Minn., are in town.

MC CALL PRINTED PATTERNS

McCall Printed Patterns 3730, 3755, 3734

New Clothes for Small Girls

Three, six, nine—each has a new costume. Three year old's is a little dress of linen—cut in two pieces. Six year old's is a party dress with lace ruffles. Nine year old's is a summer coat with a cape attached. They were all made from McCall Printed Patterns—3730, 3755 and 3734.

Mystery Surrounds Buick's Next Move

Many Rumors Are Being Circulated Regarding a New "Six"

MYSTERY surrounds the plans of the Buick Motor Company for its 1925 year. For the last two or three months rumors have been rife of an announcement of importance to be made in the near future. Now that the summer has started, the industry and the public alike are busy with casting what Buick is doing to the effect that the company is to introduce a new six-cylinder car. As a matter of fact, the company has been generally swinging back to the six cylinder type is one answer for this prediction. And following on this is the fact that Buick, as a leader in the industry, is a naturally favorable position and its present six-cylinder car is another "six."

In view of these facts, every move of the Buick organization for the last two or three months has been noted carefully by the gossips of motordom and predictions have been numerous, based upon the events in Buick organization as interpreted with a "six" background. The shifts in the manufacturing program, customary in every organization at least once a year, have been diagnosed by the "wiseacres" as a positive indication that Buick is planning a new "six." Trivial comments by those closely associated with Buick manufacturing also have been construed to it into the picture of a new, six-cylinder Buick car. Even the most skeptical of Buick's past record on a collection of rumors.

The fact is that Buick has no new car. Not that there is anything new in this, but this all has also been construed to mean that Buick was waiting to make a move to "six" its motor. As a matter of fact, the company has been generally swinging back to the six cylinder type is one answer for this prediction. And following on this is the fact that Buick, as a leader in the industry, is a naturally favorable position and its present six-cylinder car is another "six."

As a matter of fact, the company has been generally swinging back to the six cylinder type is one answer for this prediction. And following on this is the fact that Buick, as a leader in the industry, is a naturally favorable position and its present six-cylinder car is another "six."

In view of these facts, every move of the Buick organization for the last two or three months has been noted carefully by the gossips of motordom and predictions have been numerous, based upon the events in Buick organization as interpreted with a "six" background. The shifts in the manufacturing program, customary in every organization at least once a year, have been diagnosed by the "wiseacres" as a positive indication that Buick is planning a new "six." Trivial comments by those closely associated with Buick manufacturing also have been construed to it into the picture of a new, six-cylinder Buick car. Even the most skeptical of Buick's past record on a collection of rumors.

The fact is that Buick has no new car. Not that there is anything new in this, but this all has also been construed to mean that Buick was waiting to make a move to "six" its motor. As a matter of fact, the company has been generally swinging back to the six cylinder type is one answer for this prediction. And following on this is the fact that Buick, as a leader in the industry, is a naturally favorable position and its present six-cylinder car is another "six."

10,000	10,000	10,000

The Knights of Columbus and the Gazette remain in a tie for first place in the city kitten ball league after the resumption of play Friday night after three weeks of postponed games. The contests were marked by close battles in every case with players showing marked improvement and the interest increasing steadily.

GAZETTE NOSES OUT KIWANIS IN EIGHTH

In an extra inning battle, a long hit by "Bunch" Raubacher, with two men on the bases, gave the Gazette a victory over the Kiwanis club, 10 to 9. The win kept the Gazette in a tie for first and knocked the Kiwanis out of it. It was a very close battle, with the Gazette taking the lead in the first half of the sixth and the newspapermen coming back and knocking it in the same frame. The Gazette also featured a snappy game and featured with a home run. The score: Gazette (10) Kiwanis (9).

Parker Outfit Plays Woodstock

The Parker Outfit will leave the Myers Hotel at 10 a. m., Sunday, for Woodstock, Ill., where they will play the fast city team of Woodstock. A large crowd is expected to make the trip by car to get behind the boys and help to make things more poppy. Those making the trip are: Kelm, Mueller, Hager, Schleffelman, Young, Callaway, Peterson, Prof. Green, McGee, J. Freeman, Duran, Johns, Decker and Mathe.

MOTION PICTURE SHOW JUMPING MEET

New York.—The Olympic committee is so confident of the loyalty of each jumping star that it has authorized the motion picture to be taken of it and used as a means of instructing youthful jumping candidates. This was yesterday by Fredrick W. Ruben, secretary of the American Olympic committee, who has indicated his belief that the council of the International Amateur Athletic Federation would sustain the loyalty of the American Olympic committee. The question over which has been raised by French Olympic officials.

Hope to Initiate New Public Links Independence Day

Cups and poles for the six greens of the Janesville Municipal Golf club at Riverside park will be donated by the Sheldon Hardware company through Owen Skavlem. The announcement of the generous gift was made Friday afternoon.

Work is progressing as rapidly as the weather will permit. Everything is being rushed to open the course on the Fourth of July. In that event, the six holes will be thrown open to the public and all will be invited to use it free on the first day. Further and definite announcement will be made in the next few days.

The heavy rains of the past week have held up work, especially the cutting of the fairways. Two washes of water coming off the nearby watershed cut minor ditches, which had to be repaired.

By the goodness of Will Shearer of the Oak Hill Cemetery association and the board of directors of the Janesville Country club, two horse-drawn mowers were put to work on the park Thursday. With them, the fairways are getting a second cut and will be in temporary playable shape in the next few days.

A great many visitors have been at the grounds during the past week or so. Some of them have taken their clubs along and had a little practice even in the unfinished condition of the course.

A request is made by the officers of the club that motorists keep their machines off the fairways and the greens, parking them close to the entrance.

Flemming Loaned to Cambridge by Janesville Club

(By Staff Correspondent)
Edgerton.—Permission to use Leo Fleming of Janesville, starting Sunday, was given the Cambridge team of the Southern Wisconsin league at a meeting of the board of directors here Friday night. Fleming is on the roster of the Janesville club and goes to Cambridge under release by the Rochester, with the option of recalling him upon two weeks' notice. Cambridge was also given permission to use Leo Fleming of Janesville, starting Sunday, was given the Cambridge team of the Southern Wisconsin league at a meeting of the board of directors here Friday night.

Leo Fleming, Cambridge.—The never failing smile on the cheery face of Walter Hagen, was expanded into a broad grin Saturday. For the second time in three years, the dapper American, born professional, having demonstrated with driver, masher and putter his superiority over the best golfers produced in England and Scotland, was again the champion of the world. He finished with a difficult down ball put just one stroke in front of E. H. Whitehouse, the young British professional. Had the putt stayed on a play off at 36 holes, would have been necessary today. The scores of the leaders were: Hagen, 201; Whitehouse, 202; Donald Smith and Frank Hall, 203; J. H. Taylor, 207; George Duncan, 209; Jim Barnes, 200; Gil Nelson, 210; Gene Sarazen, 211; among the high scorers with 223.

Local Women Win Golf Prizes at Beloit Meet

Two Janesville women took top prizes in an invitation open golf tournament at the Beloit Country club, Thursday, in which Beloit, Beloit and Janesville took part. Sixteen Janesville golfers attended. Mrs. A. J. Harris of Janesville won the low gross score with 24-12-51. Mrs. A. J. Gibbons of Janesville won the low net prize with 112-49-73.

Janesville golfers at Beloit were: Mesdames A. J. Harris, N. L. Carlo, W. B. Alwood, J. A. Grainger, A. J. Gibbons, P. J. E. Wood, D. W. Holmes, E. H. Peterson, J. L. Wilcox, Alice Schaller, R. L. Wisner, P. W. Allen, R. L. J. King, Arthur Baumann and Humphrey Foster.

Aug. 13 and 14 are the dates selected to play in the Southern Illinois Golf association. The local club is asked to send a six-woman team. The tournament will be held at Beloit.

An international athletic event is to be one of the features of the 50th anniversary celebration of the signing of the Declaration of Independence in Philadelphia, Pa., for the summer of 1926.

PLAYED 26 INNINGS One of the longest games in the annals of the minor leagues was played by the Birmingham and Peoria teams of the Three-Ice league, May 31, 1926. The contest went twenty-six innings and was won by Peoria, by a score of 3 to 1.

GREATEST-RUNNER ON EARTH

Paavo Nurmi finishing one of his record runs.

Uncle Sam's distance runner must show their heels to "the greatest runner that ever lived" if they hope to win the 1,500 to 5,000-meter events in the Olympic games. The finals in these races will be staged July 19.

Paavo Nurmi, slight, muscular Finnish Mercury, is the man European athletic experts have called the premier of all runners. And they may well call him that in view of his wonder feats on the path. Only a few days ago Nurmi, racing against world records which he set in the 1,500 and 5,000-meter runs in convincing style.

Over the track at Helsinki, Finland, he clipped two-fifths of a second of the record for the shorter distance and then, with a rest of but 45 minutes, lopped within a fraction of seven seconds off the 5,000-meter classic. His time for the short distance was 7:52.35. His mark for the second race was 14:28.35.

The men on whom America is counting to turn back this fleet-footed Finlander are Ray Barker, Lloyd Hahn, W. O. Spencer and other Jim Connolly or Johnny Walters.

Just what chance have any of these boys of beating the European star? Figure it out for yourself. Barker won the final in that 1,500-meter event in the Olympic trials at Cambridge a couple of weeks back. His time was 7:55.8-10. This is six and one-fifth seconds slower than Nurmi's time.

Two things must be considered, however. Barker was not trying for a record. A victory and the qualification it gave him was all he sought. Nurmi was running against time.

Nurmi was at his best that day. Barker possibly did not show his best form.

There is a possibility also that Hahn or Spencer may be in perfect form that day and display a flash that will surprise even the men who have watched them in preparation for the big day.

In the longer race Uncle Sam's hopes center in Johnny Romig, Philo Doolittle and Bill Cox. Romig, Penn State runner, won the try-out race in the second time of 18:15-7-10. This, however, is 47 seconds slower than Nurmi's.

The fact that the Americans will go into the second race against Nurmi fresh may help them in the 5,000-meter run. But the Finlander showed at Helsinki that he has wonderful recuperative powers. Apparently Uncle Sam's stars have a task ahead of them.

Japanese Look for Net Talent in U. S. Ranks

New York.—During the last four years, Japan has sent a succession of players to this country to represent her in the Davis Cup matches. In 1921 it was Zengo Shimizu; in 1922, Seishiro Kashiwa; last year it was Masamune Fukuda, and this year it is Takio Harada. Each of these players came to the United States with a reputation and was named for the Japanese team on the basis of his performance in Japan. Shimizu's arrival was heralded by his performance in India and at Wimbledon, where he stood out as one of the leading players of the world. Kashiwa's name was developed considerably in this country but he had made a name for himself in the Orient. Fukuda and Harada arrived as the holders of the Japanese championship.

Not one of these four players, with the exception of Shimizu, has measured up to "first ten" calibre. Matched against American players, with their speed of strokes and mastery of net play, the Japanese netmen have been at a big disadvantage with their track court game, learned in their native land, where they had no opportunity to meet players who could develop their play. Shimizu, after starting off badly in 1921 and losing two matches to S. H. Woodworth, suddenly developed into a star of the first magnitude. His match with Tilden in the challenge round at Forest Hills, in which he was within two points of defeating the American champion, will be remembered as one of the most sensational in the history of the classic. The outstanding characteristics of the Japanese player are his unusual steadiness and his ability to get back the most impossible shots.

Since that match, Shimizu has developed something of a "net attack" but he has never since played as well, and his work during the last two seasons has been distinctly inferior, owing partly to enforced absence from the court for long periods for various reasons. There are a number of players not ranked in the first ten who have beaten Shimizu.

It is probable Japan will seek net talent among the American residents in the United States.

Bradleys Meet Sharon Sunday for the Rubber

(SPECIAL TO THE GAZETTE)
Sharon.—The Bradley Knitwears of Delavan will clash against Sharon here on Sunday at 2:30 p. m. in the rubber game of a series of three. Each club has won one to date. Rivalry is unusually keen. The Capron band will play.

Walworth Ikes Plan Big Meet

(SPECIAL TO THE GAZETTE)
Tebkorn.—Plans for a joint meeting of the Izak Walton chapters of Elkhor, Lake Geneva and Delavan were made at a meeting of the local chapter Friday night. Matters pertaining to the interests of conservation in this territory are to be taken up.

SOUTHERN COLLEGES MAY FORM NEW BALL LEAGUE

Efforts are being made to form an intercollegiate baseball league in the southern states. It is hoped to start play next spring. Colleges asked to enter teams are: Washington and Lee, Virginia; North Carolina State, Virginia Polytechnic Institute, Virginia Military Institute and University of Maryland.

THE DOHSE SYSTEM

A Cornellian says the Cornell varsity eleven is picked. In fact, has been picked for years.

GIANT CATCHERS HAVE

New York.—Did you ever hear of a 97 year old catching star? Well, step up, boys, and meet Mr. McGraw's (the) Uncle Sam, who started to play ball before the first double-jointed peanut was invented. He is 97 years old by his own admission.

Radio Ahemith, who has caught in every league except possibly the Anti-Lion League, is 92 and Frank Snyder, who used to run around with one of the original Florida Setters, was 91.

We submit this trio as the oldest catching staff in the world.

Name Black Gold to Take Latonia

Ikes at Mills - Form Chapter of 30 Members

Take Mills.—The local Izak Walton chapter, organized Thursday night with 30 charter members, elected Robert P. Perry, president. Other officers chosen were C. S. Greenwood, vice-president; Harold E. Eganberg, secretary; C. J. Fuller, treasurer.

Mr. J. H. Hilmrod, national club lecturer, spoke. The local chapter took under advisement a suggestion that it host to the Rock river valley chapters of Jefferson, Port Atkinson, Janesville and Edgerton at a picnic and fish fry on Rock lake some time in August.

Fish are biting well all over southern Wisconsin, according to the reports coming in. There seems to be more fishing this year at Lake Koshong and in Rock river than for two years, although the same people state there seems to be a falling off in the number of bites now. Spawning is extremely late, due to the prolonged rainy season, and game fish that are being caught are filled with eggs. One report brought back from the north was a lake that the spawning season is later than it has been for 20 years.

There have been so many people down at Errol Winter's store looking at his "big fish" that he has lost the fine specimen. It was a wild cat, jumping so much and thereby splashing water in the face of the men when they went to take a peek, that he kicked the bucket. Harry Sheldon, Bill Dungen, Frank Hickey and Harold Baumgartner may know something about it.

Reports from Iowa are that game fish in that state are being killed by all washing off the roads into the streams. Residents in northern Iowa protested that game roads killed game fish and their petition to rescind an order for oiling the roads was heeded.

Eagle Ball Club to Meet Albany

The Janesville Eagles baseball team will play at Albany on Sunday in the first game of the season. Team members are asked to meet at Eagles hall at 1 p. m.

EQUALS SPRINT RECORD

Miss Audrey Horton, 17-year-old senior at Centerville (Pa.) high school, is said to have equaled the world record for the 50-yard dash when she ran the half century at the Washington county Intercollegiate A. A. track games recently in a record time. She also came within two-fifths of a second of the world's record in the 75-yard dash when she was timed in 9 seconds flat.

Stoughton.—Eddie Baerning, new professional at the Stoughton County club, made the course in par 35 during the past week. The lowest score previously was 2 40 by Early Jacobson, the genial pro at Edgerton. The Edgerton club is to play here in the near future.

TAYLOR LOSES CASTLE.
Bud Taylor, the midwestern bantam, took a beating from the local champion, lost ground when he was decisively beaten by Pancho Villa in their recent fight. Taylor outweighed Villa by six pounds.

CALLS FOR TEST OF ALL CATTLE WITHIN COUNTY

FILED WITH STATE AGRICULTURE DEPARTMENT.

2,600 HAVE SIGNED

No Test Expected Until 1925
With More Funds Passed
by Legislature.

Rock county wrote another important chapter in its agricultural history this week, when, on Friday, Secretary Hugh C. Hemmingway of the county Farm Bureau filed the petitions for the area test to eradicate bovine tuberculosis. Rock is the first southern Wisconsin county to file the significant petition of at least 2,600 of the cattle owners with the Wisconsin Department of Agriculture calling for the testing of all cattle within the county.

Presentation of the petitions marks the climax of a campaign for more than a year undertaken by the Farm Bureau as the central farm organization of the county with the help of the breed associations and livestock breeders.

Test in 1925.
The area test is probably the most important county wide campaign undertaken in the county for the area test holds the greatest prospects of agricultural development of the county, once the test is applied, due to the limited finances made available for this bovine tuberculosis eradication work there is no chance that the test will be carried out a year from this fall in Rock county. There are now 15 counties of Wisconsin where the area test has been applied at least once with a follow-up test program being put into force by Commissioner John Jones and staff. Rock is the 15th county to file its petition on the waiting list and it is expected that this fall will see a least 50 of the 71 counties of the state either tested or with petitions filed for the test. Waukesha, Jefferson and Walworth are other southern Wisconsin counties seeking signers.

The Rock county petitions fully checked over carry the names of 2,600 cattle owners and additional signers will be obtained to add to this list. Checked against the assessors' list the present petitions show more than the maximum number required.

Many Tested Counties.
The first Wisconsin county to start and go through with the area test was Barron county. Successful with this program the state and federal department of agriculture men then followed a policy of testing an area work in the northern counties and "nibbling" at the T. B. problem in the southern counties by accredited herd work and test by practitioners when money was available. The other counties having the area test are Douglas, Bayfield, Ashland, Iron, Vilas, Washburn, Sawyer, Price, Oneida, Lincoln, Taylor, Chippewa, Rusk, Eau Claire, Clark, La Crosse, Monroe and Juneau.

The counties having completed the petition campaign are Burnett, Polk, St. Croix, Buffalo, Trempealeau, Jackson, Wood, Forest, Pierce, Langlade, Shawano, Waushara, Waupaca, Green Lake and Rock.

Seek "T. B." Fund.
An effort will be made to seek the required amount from the Wisconsin legislature to carry through the statewide program to test for bovine tuberculosis. Wisconsin is within striking distance of being a tested state and with a reasonable appropriation could carry through a testing program in every county, thus leading leadership in the dairy and livestock world. Since so many counties have been tested, are on the waiting list or are circulating petitions, it is declared there is a real chance of the larger sum going through the next legislature.

Starting July 1 there will be some money available to pay indemnities for claims on practitioner tests and Dr. F. L. Lewis, Janesville, now in a northern county on area work, will return to Rock, Jefferson and Walworth counties for accredited herd testing.

A policy will be urged in Rock county following the area test to continue testing to keep the herds on the needed list, the health of the cattle being guaranteed.

Infection of Hogs.
Important observations have been made on the infection of swine with tuberculosis.

Cases aroused the authorities interest where lesions were found on hogs from dairy farms where the herd history has never shown a reactor and the herd had been tested for some years. In a series of tests in southern Wisconsin it was found that 75 per cent of the farms having clean cattle but showing infected swine had children who had been infected with "T. B." Authorities are now beginning to believe that swine tuberculosis is caused as much by infected children as from feeding infected milk.

Proper pasteurization of the dairy products, skim milk and whey have reduced the losses of young stock and hogs to a marked degree.

HOOF TRIMMING IS AN IMPORTANT JOB

One job that the farmer is likely to neglect is the trimming of the hoofs of his cattle and to a marked degree hogs and colts.

Inspection of many herds shows that many breeders do not fully appreciate the importance of keeping the hoofs trimmed down and level. Under natural conditions where the animal grazes and works a great deal, trimming is not necessary. But coupling a bull or cow up in a barn, ankle deep in bedding or even worse, fifth, means that the animal has no opportunity to wear down the hoofs. If the feet are allowed to become unlevel they will throw the heavy pillar and lower leg bones out of plumb, and it will remain that way, unless the error is corrected at an early stage. Last year the county had out a young show bull that for death of body and top-line could hardly be faulted for the animal had "type calves." However, his feet had been neglected until the bull walked with a peculiar swing and twist of the feet that cost him high prices. "Toeing in" properly trimmed feet the bull walks correctly.

Sound underpinning is necessary for a growing and heavy animal. Don't forget to take your kodak with you tomorrow.

Handling of Milk in Home Vital to Care of Babies

Ignorance in the care of babies under two years of age was branded as unjustifiable by Dr. Fred B. Welch, chief health officer, Friday, in a statement designed to reduce the number of diarrhoea cases among infants during the summer months.

"There is no reason for lack of education in these matters in a city which maintains an infant welfare center," Dr. Welch said, "and where such information can always be obtained."

"Good people realize the danger of summer diarrhoea to children and the high mortality rate which this disease causes in infants under two years of age," he better understanding of the cause brings with it greater probabilities in its prevention."

The disease, according to Dr. Welch, rarely occurs in nursing babies, and maternal nursing will do more than any other measure in the reduction of this disease.

"Nursing babies should never be weaned during the hot months of summer," said Dr. Welch. "Several cases of cholera infantum occurred in this city last summer among nursing babies who were given unpasteurized cow's milk when such auxiliary feedings were not necessary."

"Babies receiving artificial feeding and in the feeding of all children under two years of age, great attention should be given as to the quality of food, frequency of feeding and to modification of the milk. All water given should first be boiled, and it should always be remembered that young children, like adults, require less food but more water during the hot months of summer."

"The prevention of this disease relates to food and feeding, to hygienic surroundings and to improved sanitation."

"Care of the milk in the home," continued Dr. Welch, "is most important in its relation to the child's health. Milk should always be placed on ice as soon as possible after delivery, for if this is not done certain changes take place in the milk due to bacterial action, which renders it unsafe for use. Many cases of summer diarrhoea are caused each year by the improper handling of milk in the home. Milk to be safe milk must be kept at low temperature after pasteurization. In other words the care of the milk in the home is as important as its care in its production and transportation."

DAIRY CATTLE BEEF AFFECTING MARKET

Rapid strides made in dairying are bound to reflect in the market on meat animals.

Not that dairying will cause peasantry to consume less beef, pork or mutton but it is estimated that at least 50 per cent of all the cattle marketed in Chicago for the beef show dairy characteristics and that the proportion of cattle of dairy blood at all the markets runs around 50 per cent. This beef comes to market, not as beef, but as dairy cattle, and dairying, by its very nature, is bound to dominate the market. If producers turn their attention to the production of high quality eggs and market them efficiently, officials of the department assert.

Wisconsin farmers even now are shipping many eggs to the better markets at a profit, and it only remains for the producer to realize the opportunity which awaits them in the field of egg production to make Wisconsin eggs occupy the same place in the product market of the country as our cheese and butter now do, it is stated.

STATE FAIR JUDGES

The cattle judges announced for the Wisconsin state fair are: Beef cattle, Alfred Ryden, Abingdon, Ill.; dual-purpose cattle, Frank Holland, Milton, Wis.; Jersey, Ward Merriam, Lawrence, N. Y.; Guernsey and Jersey, R. S. Huler, Madison; Ayrshire, A. J. Cramer, Madison; and Brown Swiss, George Humphrey, Madison.

The swine judges scheduled are: Frank E. Sherer, Joy, Ill.; Chester Whites, Berkshire, Wyman Lovejoy, Roscoe, Ill.; Duroc, Ira Jackson, Thionesta, Ohio; Poland-China, Thomas Shattock, Hastings, Neb.; Hampshires, Spotted Poland-Chinas and Large Yorkshires, Dewey Head, Marion, Ohio.

FIGHT ARMY WORM

Army worms, which by the millions have been pushing a slow, devastating march across the farm lands of northern Illinois, have reached Kane county. Farmers are adopting extreme measures to stop the onrush.

NEW EGG GRADES NOW IN EFFECT

Wisconsin Eggs Netting Premium on Market—Hints for Poultrymen.

Bad eggs must now stay at home and candling will help to keep them there.

Regulations requiring that all market eggs be candled, the unmarketable eggs removed and candling certificates affixed to the cases, entered into effect June 15 for the remainder of the year, according to an order received from the Wisconsin department of markets. This order applies to all Wisconsin egg producers and dealers. Dealers are urged to return all poor eggs to the producers, and producers are asked to co-operate with the dealers in marketing only fresh, clean eggs.

Eggs Get Premium

Last year Wisconsin eggs received a premium of one to two cents a dozen over those in Iowa and Missouri during the summer months, due to the fact that the Badger eggs were of higher quality, the department reports. This year it is hoped that the margin can be increased by furnishing still better eggs to the central markets.

Wisconsin is favorably located from the standpoint of quality egg production. An abundance of feed is grown locally in all sections of the state, and the dairy business provides by-products in the form of skim milk and whey which can be put to better use than as feed for hens. This very fact gives the Wisconsin egg producer a big advantage over those planted in sections where milk is not plentiful.

Have Plenty of Feed

Home grown grains are available and both mill feed and commercial mixed feeds are manufactured in great quantities within short shipping distance. These are handled in nearly every town, thus making it possible to secure them nearby or to order direct from the factory in carload lots.

Not only is the feed situation favorable, but the climatic conditions are conducive to the production of high quality eggs throughout the entire year. While the winter weather is sometimes severe, good housing largely overcomes this, and the relatively even summer makes it possible for producers eggs during this period without heating before they reach the market, the department points out.

Refrigeration Helps

Refrigerator freight and express transportation, which is well developed in the state, enables shippers to put their eggs on market in a very superior condition to those produced in other sections during the hot summer weather.

The combination of these three—good feed, favorable climate, and refrigeration—offers an opportunity to Wisconsin eggs to dominate the market. If producers turn their attention to the production of high quality eggs and market them efficiently, officials of the department assert.

Wisconsin farmers even now are shipping many eggs to the better markets at a profit, and it only remains for the producer to realize the opportunity which awaits them in the field of egg production to make Wisconsin eggs occupy the same place in the product market of the country as our cheese and butter now do, it is stated.

BLACKHAWK HATCHERY

My son, consider the duck and

give thought unto her husband.
12. Seven out of all when the Wad-die family don't amble deliberately across the farm's highway.

13. Even in front of the "speeding car," and doth quack with maddening ease.

14. Run them not down, but quack back at them with thy horn and put a brake on thy speed until they be lost.

15. And thank high heaven that they dodge and run not in circles before thy chariot, even as the hen whose brains he scattered.

16. But continue steadily on their way, even as the tortoise of much fame.

17. For great is the duck and, greatly to be praised upon the farm, whereon she may wander at will and consume much green food, for which she hath great need.

18. And greatly should she profit her master in gold and in heaped up plums.

19. Now there be two types of duc-die, even the tanner, which layeth lustily and whose eggs make kind the breakfast table; and the market type, which includeth the Telkin of great size, the Rouen, the Muscovy and many others, small but useful.

20. They which be kept for laying shall be fed heavily of laying mash throughout the year, mixed with 10 percent of fresh grain.

21. Unless they waddle freely about the farm and gather unto themselves their own supply of succulent food.

22. But they which be for the table shall be fed laying mash only during the breeding season and shortly prior thereto.

23. Give unto each drake, even he with the curly tail, not more than eight wives and may, only four.

24. The mother duck siteth for 28 days upon her eggs before the ducklings hatch, excepting only the Muscovy, which taketh from 30 to 32 days.

25. The ducklings grow right lustily on an ordinary crew and be diligent unto the eye.

26. And their upkeep is not great, but the reward in dark meat compenseth for what shall care is necessary.

27. And the family gathereth about the table and the mouth watereth and the toe curlith even as Grace is said in other sections.

28. And the hungry shall be filled with good things, even with juicy brunette meat and with rich dressing and with delicious gravy, withal.

29. Raise ye the duck.

NEW SEED CORN MAKES HIT WITH BADGER FARMERS

Introduction of a cold resistant Golden Glow corn and recommendation for using Grimm alfalfa, were the high spots for the farmers at Station Day at the Wisconsin College of Agriculture, attended by 2,500 farmers of the state, mainly from southern counties.

Plots on the "11B" farm of the college showed that Grimm alfalfa came through 80 percent and some of the common varieties only 40 percent and the Grimm did not winter-kill. Grimm's cowpea sweet clover was recommended as having a better stem and ability to mature earlier.

Too many farmers in this section are still depending on the old wind-mill and exposure method of drying seed corn. One demonstration showed that corn properly dried and cured by artificial heat came through 95 percent and that, hung out on the wind-mill to be effected every frost and weather condition, only 20 percent.

Shallow planting of the properly cured seed corn showed the best results, that planted about an inch coming up good and that planted four inches not showing any growth.

The cold resistant Golden Glow corn has been developed by the college of 11 years and showed better growth than the other varieties.

Henry Wieland, Beloit, operated one of the line crushers using in the time demonstrations on the swamp land.

Root rot resisting tobacco seed showed its value in another valuable demonstration. All departments of the college had interesting and instructive exhibits and in addition there was a program for the women and children.

REBEL IS EXECUTED

Mexico City.—The rebel leader Manuel Chao, former governor of Chihuahua, was executed by a firing squad.

PICK SHOW HERDS FOR FAIR CIRCUIT

Dane, Rock, Walworth and Jefferson All Will Show County Herds.

With both the state fair and the national fair show held at the state fair grounds this season, Rock county is putting forth its best efforts for an unequalled live stock exhibit. This will be the third year Rock county has sent out county show herds.

The county herd will first exhibit at the Rock county fair in Evansville and then the Janesville fair. The Janesville fair will be the round-up of all the prospective stock in the county and the county herd will be culled down to the cream of the stock before being taken out on the circuit.

Somewhere between 40 and 50 head of cattle will be taken on the state fair circuit into Illinois and Iowa, and end up at Milwaukee. This collection of cattle will be further culled for the national dairy show, under the present plans.

Bureau to Back Herd

The Rock county Farm Bureau will finance the show herds again this year. For the last two years the show herds have been largely self-supporting, and are probably the greatest factor in furthering the agricultural reputation of Rock county.

Rock's strongest bid for top honors will be made with Milking-Short-horns, for which the county has long been noted as a leader. While the 1922 and 1923 Short-horn herds "cleaned up" at every exhibit, the new show herd will be stronger than any previous collection of dual purpose cattle the county has shown.

However, Rock is concentrating efforts to bring out a winning collection of Holsteins, Guernseys, Brown Swisses, and Jerseys. Within the next two weeks animals for these herds will be selected and final decision made on the individuality of the herds at the Janesville fair.

Jefferson, Green, Walworth and Dane counties are going to show county herds at the first three of these counties have black and whites of merit.

Other Counties Showing

Walworth county will show a Milking-Short-horn herd for the first time, and Jefferson may exhibit a county herd of Guernseys.

Indications are that the finest collection of cattle ever assembled in America will be seen at the Wisconsin state fair, and then at the national, this year. There will be more exhibitors and consequently more cattle of merit out for the show ring ribbons.

Breeders of Rock county are being urged to exhibit at both fairs—Janesville and Janesville—in hope of securing additional live stock that will win for the county.

Rock county will send a large number of its club exhibits to the state fair, if success merits, then to the national dairy show.

CHICKEN CULLING IN SPRING VALLEY

Three chicken culling demonstrations will be conducted by County Agent R. T. Gussco Monday, June 29—the first at 10 a. m. at the farm of A. Rindlow, Spring Valley; the second at the A. J. Schartzlow farm at 2 p. m. and the third at 4 p. m. at the Tilmann Everson farm. All the farms are in Spring Valley township.

WOMEN IN SPOTLIGHT AT DEMOCRATIC CONVENTION

Above (left to right): Miss Nancy Cook, Mrs. James Thompson, May Allison (on ladder) and Mrs. Neil Wright. Below: Mrs. Cordell Hull, Mrs. Norman E. Mack, Mrs. John F. Bylan.

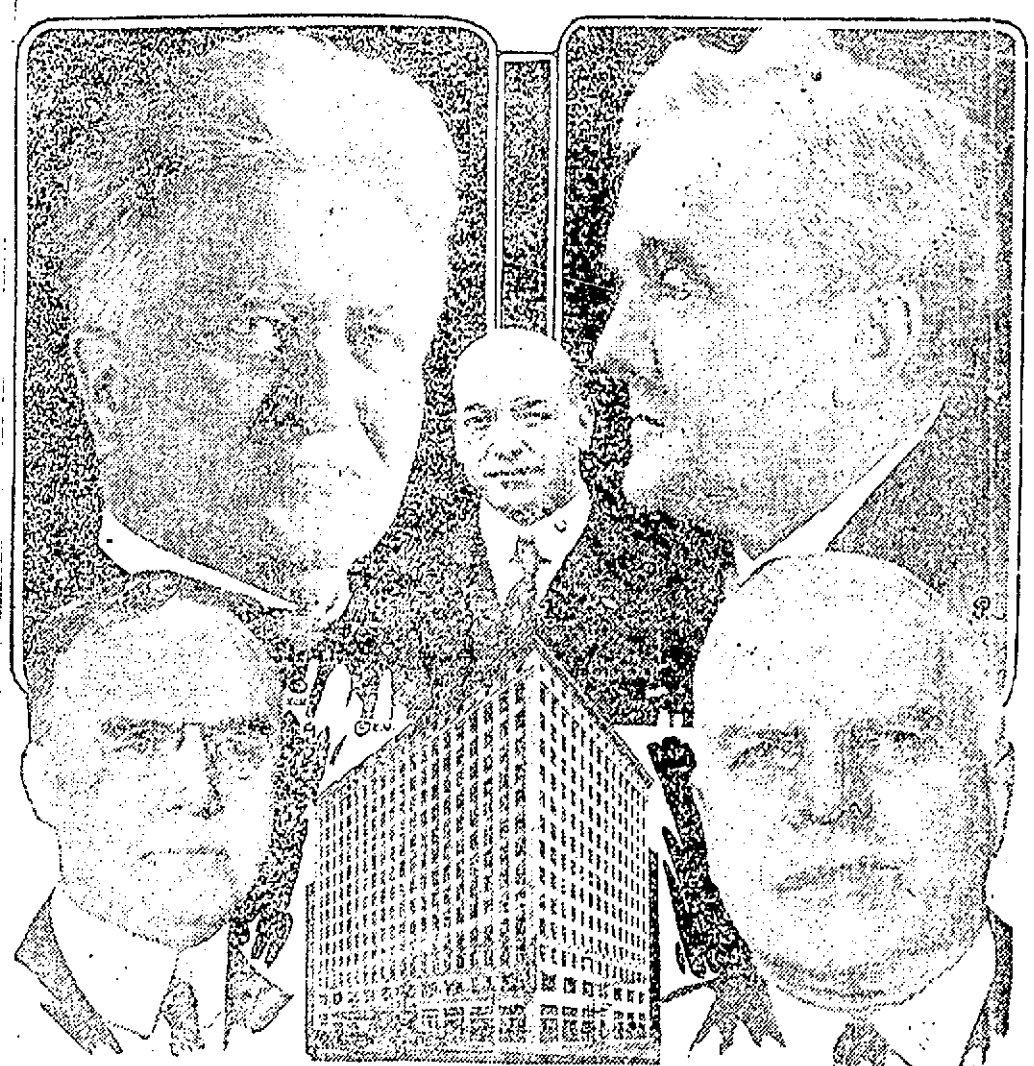

THE BELL THAT PEALD THE NOTES OF LIBERTY HEARD AROUND THE WORLD

"Liberty Bell."

One of the most treasured possessions of the United States is its famous "Liberty Bell," now in Independence Hall, Philadelphia. It was this instrument which on July 4, 1776, pealed the notes that were heard around the world, that the thirteen colonies had declared their independence from the sovereignty of the king of England.

LAFOLLETTE "THIRD PARTY" RUNNING MATE UNCERTAIN

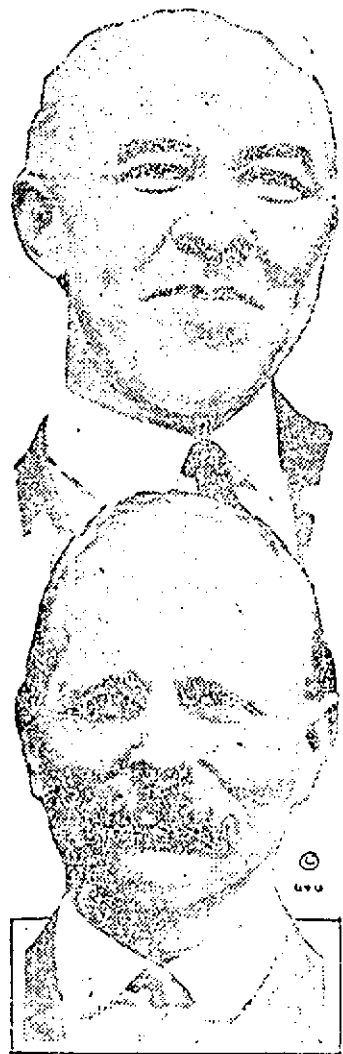

Above: Robert M. LaFollette, William M. Johnston, George W. Norris. Below: Ralph B. Howell, the Engineers building in Cleveland, Warren S. Stone.

"Declare your political independence. Help deliver the government from the power of the predatory financial despotism which now controls it." This is the call sent out to the country by the organizers of the Conference for Progressive Political Action, which will convene in Cleveland on July 4 in the Brotherhood of Locomotive Engineers building, a towering structure erected and owned by workers.

It is considered certain that Robert M. LaFollette of Wisconsin will head the presidential ticket the conference will put into the field. Several men prominently identified with the progressive movement are mentioned as possible running mates for him, the most seriously considered being Senator George W. Norris of Nebraska and Warren

S. Stone, head of the Engineers' brotherhood and the dominant leader of railroad labor. Others looked upon as possibilities are Senator Ralph H. Howell of Nebraska; William H. Johnston, president of the Machinists' union; Huston Thompson of Colorado, of the federal trade commission; Representative George Huddleston of Alabama, and Senator Smith W. Brookhart of Iowa.

EX-MINER LEADER HEADS TICKET OF FARMER-LABORITES

Duncan McDonald (above) and William Bouck.

A miner and a fruit-grower head the presidential ticket put into the field by the national Farmer-Labor party at its convention in St. Paul. Duncan McDonald of Chicago, the presidential nominee, is a former president of the United Mine Workers, and William Bouck, his running mate as vice president, formerly was president of the grange in Washington state.

MALVY, BANISHMENT AT END, WINS BACK FRENCH DEPUTYSHIP

M. Malvy.

M. Malvy, deadly enemy of Clemenceau, war time premier of France, will sit in the chamber of deputies again after June 2, when the chamber chosen in the recent general election meets. Malvy, one-time minister of the interior, was accused of treason by Clemenceau, then premier, convicted in a minor degree, and banished from France for two years. He was reelected to parliament by the department of Lot.

OUTSIDE ENTHUSIASM AT CONCLAVE CENTERS ON McADOO, SMITH

William G. McAdoo receiving an ovation from admirers in New York, and a close-up of Mr. and Mrs. McAdoo at the convention.

Outside enthusiasm at the Democratic national convention in New York is centered around William G. McAdoo and Al Smith. The McAdoo headquarters in the Vanderbilt hotel is constantly thronged with visitors, and his appearances in the streets call forth outbursts of applause. Similar ovations are being given New York's governor.

MAUGHAM'S MAXIM IS, "IF AT FIRST YOU DON'T SUCCEED, TRY, TRY AGAIN"

Lieut. Russell L. Maugham and his transcontinental plane.

MOTHER AND FATHER OF DAWES, RUNNING MATE OF COOLIDGE

Mr. and Mrs. R. R. Dawes.

The Mary Dawes home for women, in Chicago, is the memorial of Charles G. Dawes, Republican vice presidential nominee, to his mother. The nominee's father was General R. R. Dawes, commander of Wisconsin's "Iron Brigade" in the Civil war. Both are dead.

WOMEN NOTABLES AT DEMOCRATIC CONVENTION

Above: Mrs. Berenice Pyke, (left), Mrs. C. L. Collins, Mrs. Dorothy Francis. Below: Mrs. Izetta Jewell, Mrs. Antoinette Funk, Mary Synon.

Here are some of the women figuring prominently in the Democratic convention in New York: Mrs. Antoinette Funk is a suffrage leader in Washington, D. C., and Mary Synon, author of the just published "Life of McAdoo." Mrs. Izetta Jewell, Brown

of West Virginia, former actress, is the second of the nomination of John W. Davis. She played a similar role in the 1920 convention.

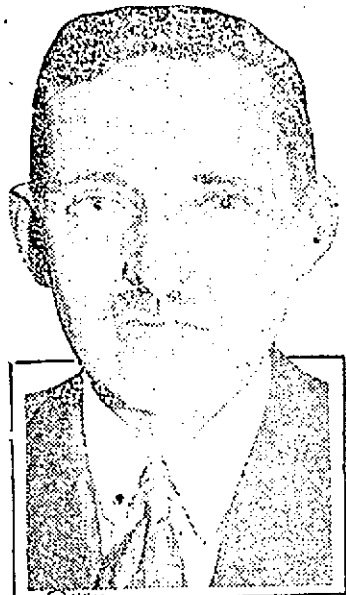

Mrs. Dorothy Francis of New York is telling the world she's a McAdoo voter by wearing the largest McAdoo button at the conclave. She is a member of the McAdoo executive committee. Mrs. Berenice Pyke of Cleveland and Mrs. C. L. Collins have long been notable in party councils. The latter is national committeewoman from New Mexico.

PERENNIAL BLACK AND WHITE USED ON RIDING SUIT

The black and white on sembo has extended its activities until it embraces our riding suits. For a gallop on horseback in the warm summer days this suit consisting of white linen breeches and black molton coat is recommended. A black milan hat is worn with it.

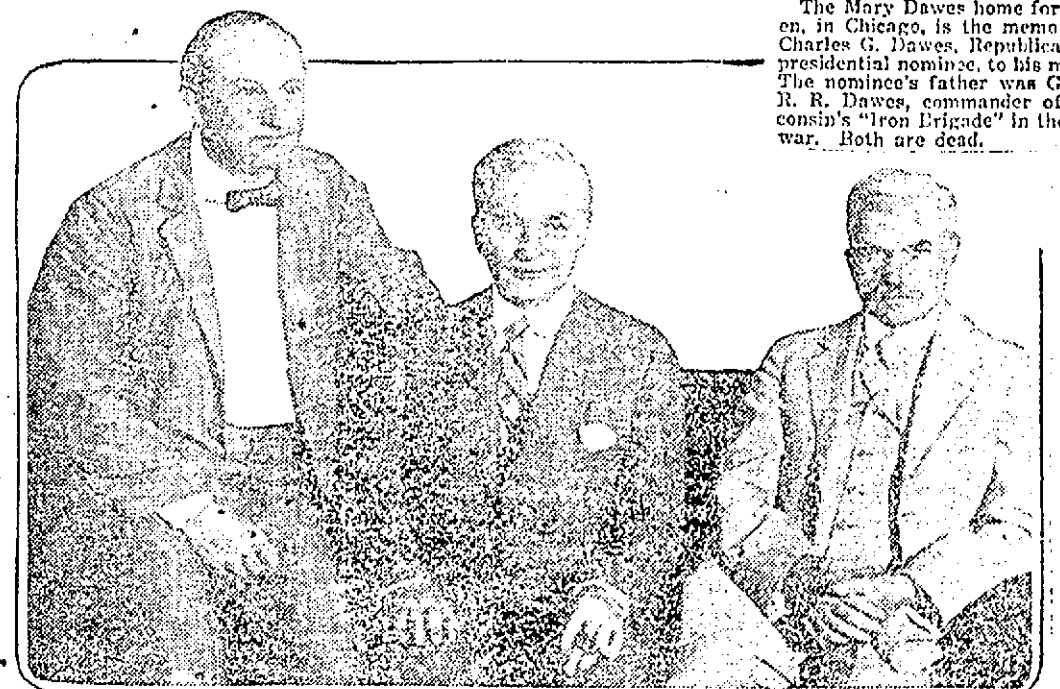

VROOMAN PICKED BY McADOO FOR V. P. NOMINATION

Carl Vrooman.

Carl Vrooman of Illinois, former assistant secretary of agriculture and noted agricultural expert, is declared to be William G. McAdoo's choice for Democratic vice presidential nominee.

A CONVENTION OF THEIR OWN

Pat Harrison (left), Cordell Hull (center) and Thomas Walsh.

Three of the most prominent figures in the Democratic convention, Pat Harrison, who was temporary chairman and key-

note; Cordell Hull, chairman of the national Democratic committee, and Thomas Walsh, permanent chairman, were here caught by the photographer at a hotel

room conference between sessions. Harrison is senator from Mississippi; Walsh, senator from Montana and Hull, a representative from Tennessee.

World Famous Newspapers and Magazines Use Gazette Advertising

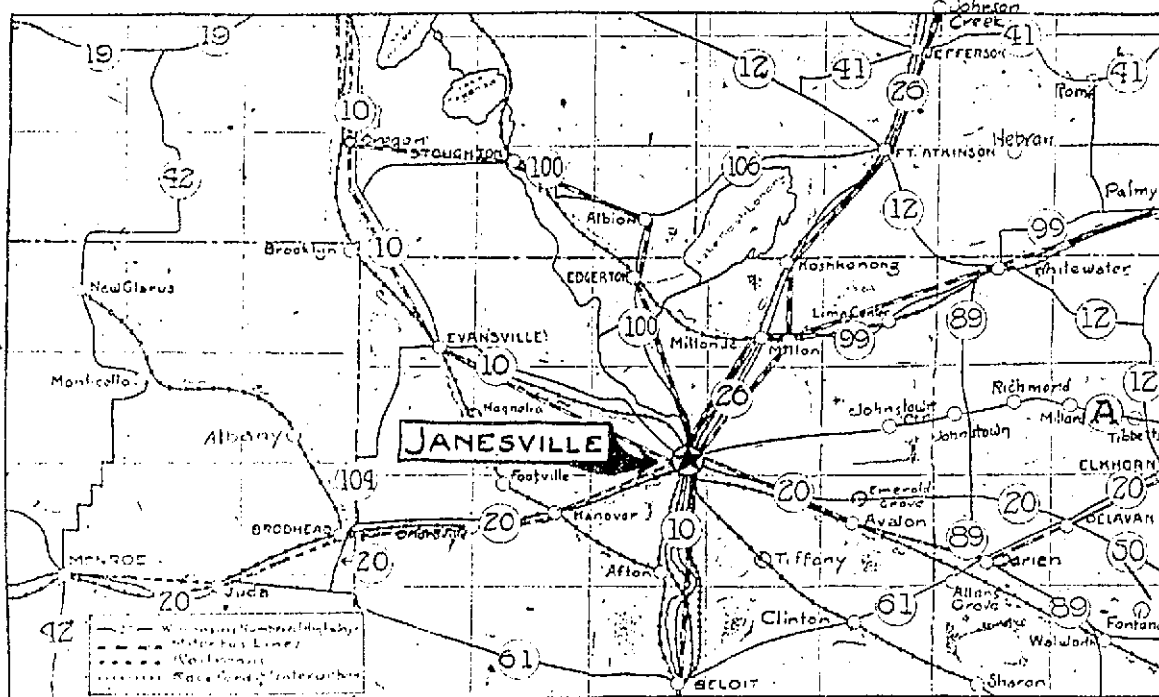

To Cover the Janesville-Southern Wisconsin Market!

Prominent Advertising Mediums Recognize Complete Coverage of This Market by an "Unusual Newspaper" and Use It to Get Results

Nationally Known Publications Who Are Regular Advertisers in The Gazette

Chicago Tribune	Chicago Daily News
The Saturday Evening Post	The Country Gentleman
Chicago Herald & Examiner	Milwaukee Journal
The Ladies' Home Journal	Chicago American

Territory Covered By Gazette Circulation

Proof of the business building, result getting value of newspaper advertising has been found and presented by so many merchants and manufacturers upon so many occasions that all doubt as to its power and ability to produce tangible results has been removed.

It is no longer a question of "does newspaper advertising pay, but rather a question of "which newspaper and how much space shall I use?" Not one concern in ten—merchants or manufacturer—can well afford not to advertise. Sales must be made to balance production and a profit returned on your investment regardless of market conditions and adequate newspaper advertising of quality merchandise at reasonable prices will function well in producing the above necessary factors.

Advertising from a national standpoint often involves the important question of which newspaper to use in covering a certain definite market. There are a number of metropolitan publications who through greatly exaggerated statements, claim to cover the Janesville-Southern Wisconsin market, but it is never-the-less, a very outstanding and important fact that these publications use the advertising columns of the Gazette to "cover" this market for their own needs.

There is only ONE NEWSPAPER that COVERS THE JANESVILLE-SOUTHERN WISCONSIN MARKET and that publication is the Janesville Gazette. Over 60,000 people read the Gazette each night. Getting business from this large number of buyers is the foundation of a successful commercial enterprise. Phone 2500 now. Our advertising representatives will assist you in getting immediate response from your advertising message to these people.

THE JANESVILLE GAZETTE

"AN UNUSUAL NEWSPAPER"

The RADIO PROGRAM

MAY RENEW MACMILLAN CONTACT
Toronto—William Chast, local radio announcer and radio operator for the Canadian government station "Arctic," which is leaving Quebec July 1 on his annual trip to Inuit Bay, may be the first announcer to return to the complete details of the winter experiences and homecoming arrangements of Captain Donald B. MacMillan, Arctic explorer. The departure of the ship, Arctic, under the Northwest Territories branch of the Canadian department of the interior, comes at a time when the arrival of daylight in the far north is beginning to shut off the radio contact between MacMillan and radio announcers in Canada and the United States. The radio messages that have come from Inuit Bay, the Arctic, have been gradually less frequent as darkness began to leave the polar region. At late hours have only a few weak messages that have failed to show the "Arctic" crew have come through without hardship. The last one told of the explorer's plan to start for home soon.

WASH "SPEECH NIGHT"
Atlanta—The Georgia Peach Night, sponsored by the Georgia Peach Growers' exchange, and presenting "talks" on the peach industry, the great army of college students who earn vacation money while studying in the peach orchards in the Peach Belt, will be featured on Saturday night, July 5, at 8:15 p. m. The program will be a change of pace to distribute many of the famous Elberta peaches among listeners.

Wheel Bearings Should Be Greased and Adjusted Before Touring

There are a number of parts about an automobile that require attention only at long intervals, but just because this is so, a large number of drivers forget these parts altogether until they are in such bad condition that expensive replacements are necessary. The front wheel bearings only require to be greased about once every two thousand miles, but they should not be left without attention for longer than this, and the bearings should be adjusted every six months. Remove the wheel caps, then jack up the wheels. Take out the cotter pin that holds the adjusting screw in place and screw the nut off, then pull off the wheel. Clean the spindle and bearings with either kerosene or gasoline. Sometimes the grease cakes or hardens in the bearings and it is a good idea, if you have the time, to place them in a dish containing a handful of soda and some water, then place on a fire and bring just to the boiling point. Swish the bearings around with a piece of wood, then take out and dry thoroughly.

Examine the bearings thoroughly to see that all balls or rollers are in good condition. If any are broken or worn, the whole bearing must be replaced. If, however, they are all right, then replace the rear bearing on spindle and pack with a good grade of cup grease. Now pack some grease inside the wheel, not too much, then replace wheel and front bearing on spindle. To adjust the wheel, turn the adjusting nut up fairly tight, then spin the wheel about a dozen times to get the grease distributed, then back off the nut a little until you feel a very slight movement in the wheel when you grasp the spokes above and below the hub and shake it back and forth. Now spin the wheel and let it stop of its own accord. If the adjustment is correct, the wheel will stop at the very bottom of the wheel. If it stops in any other position the wheel is too tight. Be sure to insert the cotter pin in the end of the spindle to keep the adjusting nut in place.

The rear wheels have adjustable bearings, but these should not be touched by the average owner. If they require adjusting, it should be done by a competent mechanic, for it requires expert knowledge to do properly. At this time, however, you want to make sure that these bearings are all right, so remove the wheel cap and jack up the wheel and test for play in the bearings in the same manner you tested the front wheels. If there is any play, have a good mechanic adjust the bearings. It is important that the rear wheels be tight in the axle shafts. If they are loose, the key way on the shaft becomes worn and the shaft is spoiled and will have to be replaced, a very expensive replacement. Take out the cotter pin holding the drive shaft nut and test with a wrench to see that the nut is pulled up as tight as possible, then replace the cotter pin. The rear axle bearings are lubricated through a greaser or plug in the wheel hub or on the axle housing at the back of the brake drum. These bearings should be lubricated at least every 1,000 miles.

A Recommendation Based on Responsibility

Automobile manufacturers are offering the public an almost endless assortment of new engineering ideas today.

Which is best? What is desirable? These are questions the buyer must ask of himself—or of someone in whose judgment he has confidence.

We recommend the Studebaker line because we have analyzed existing car types in the light of long experience and still more to the point because we are perpetually responsible for the performance of every car we sell.

Look To The Repair Man

When you choose the man to repair your car, choose him as carefully as you would your jeweler. You must rely upon his technical knowledge and his advice. You can safely place your confidence in our men—otherwise they would not be with us.

DODGE BROTHERS USED CARS

Often you hear men say that if they cared to invest a little money in this or that, they could get thousands of more miles out of their cars. But they don't bother. They trade in on a new car. And then we make the repairs which they should have made. And the cars are good for thousands of more miles, just as they said.

REMEMBER—A used car is only as good as the firm with which you deal.
